## CITY COUNCIL MEETING

CONSIDERABLE BUSINESS AT THE SESSION HELD LAST NIGHT.

### LOCAL OPTION ELECTION JUDGES

The City Funds Are at a Low Ebb and It is Urged That Only Necessary Expenditures Be Made—The Proceedings.

At 8:15 o'clock last night Mayor Babcock rapped for order at the regular meeting of the city council. All aldermen answered to roll call and Clerk Baker read the minutes of the previous meeting, which minutes were ordered filed, on motion of Mr. Sullivan.

A petition for a fire hydrant between Fourteenth and Fifteenth streets on Ohio avenue was received and the request granted.

An are light for Broadway and Carr avenue was asked for and referred to the committee.

A petition from the Anti-Saloon league, asking that the following be included in the list of Judges for the local option election was read and filed:

First ward—F. F. Combs, Charles W. Goodwin, Morris Harter, G. B. Stotts and Charles W. Leftwich.

Second ward—A. M. Parks, Jr., W. E. Grimm, J. C. McLaughlin, Jr., B. E. Elliott, Wood Wiley.

Third ward—Ira E. Melton, W. J. Lettis, L. S. Eddins, J. Fred Williams, J. A. White.

Fourth ward—John S. Hall, D. H. O'Rear, P. G. Stafford, J. R. Clifton and W. F. Hollomon.

A remonstrance against the construction of a sewer district in North-west Sedalia was read and filed.

Mr. Adler, of the finance committee, asked for further time to report regarding the city's finances.

A report of the city treasurer showed that there is the sum of \$9.65 in the general fund of the city, after paying \$730 light bill, \$217 in the Pope diage suit and \$179.50 in the Fredericks damage suit. In speaking of the ongoing, Mr. Adler requested contrivance in using the city's funds, which are now low. The report also showed that the Liberty park bird has exceeded the park fund line sum of \$495.

The ping of the intersections on East Fifth street was revived by Mr. DeJarnie, who thought that a resolution providing for the work should be adopted. A motion being made that a resolution be prepared for the above work and it was carried.

Owing to a deficiency in funds the proposed sewer district for the M., K. & T. hotel addition has been temporarily dropped and minor improvements that locality made instead.

Lights were ordered placed at Fourth and Lamine avenue and Quincy ave and Wilkerson street, Messrs. Adler, Hatton and Olmsted voting "a," the gentlemen voting no doing so on account of the uncertainty of the city's finances and not being they are opposed to such improvements when funds are provided for them.

Further time was asked for purchasing new scales.

Planter laterals in East and West Sedalia were submitted by Engineer Leamint and received.

Char Hoffman, W. M. Johns and George Mackey, representing the cemetery association, were present and filed the association's quarterly report also asked the privilege of preparing a new plat of Crown Hill cemetery.

Mr. Johns spoke at length, defining the association's intention and explaining in detail what the cemetery association contemplated.

On motion of Mr. Hatton, a special committee was appointed to confer with the cemetery association to consider proposition, with power to act.

Messrs. Hatton, Baker and Ilgenfritz were appointed the committee by Mr. Babcock.

The cemetery association's report was read and filed.

Owing his men going on a strike, J. M. W. asked for an extension of six days' time to complete the repair of the pavement of Sixth and Seventh streets.

An ordinance granting an extension of time to Mr. Brown was passed.

An ordinance to pave the alley between Sixth and Seventh streets and

Ohio and Lamine avenues was read and passed.

Mayor Babcock named Mrs. W. D. Steele as a member of the public library board, succeeding herself. She was unanimously confirmed by the council.

Miss Gertrude Smith was named next and was unanimously confirmed.

George H. Scruton was next named for a term of three years. He was unanimously confirmed.

F. W. Phipps was named to fill the unexpired term of George W. Lemon, deceased. The appointment was confirmed unanimously.

Mr. Ilgenfritz moved that Mayor Babcock confer with the library board relative to reducing expenses. No action was taken on the matter.

All properly audited bills were allowed and warrants ordered drawn to pay the same.

At 10:25 council adjourned.

## EDNA GOODRICH IS HOME

### MOTHER OF ACTRESS IS WITH HER

Announces Her Engagement to Millionaire MacMillan, and Starts West to Join Him in the Golden State.

New York, May 19.—Disguised as plain Fraulien Adams, Miss Edna Goodrich, the actress that was, returned to New York Saturday on the steamship Kaiserin Auguste Victoria.

She said that after a rest of a day or two she would go to Berkeley, Cal., and on June 10 become the wife of J. H. MacMillan, a Goldfield millionaire. MacMillan was not on the Hoboken pier to meet Miss Goodrich, but she was not disappointed.

She said she was not expecting him, as there were many troubles in Nevada which necessitated his presence there.

With Miss Goodrich was her mother, who appeared on the passenger list as Frau Elizabeth Adams.

"Why the assumed name?" Miss Goodrich was asked by a reporter who boarded the vessel down the bay.

"To avoid notoriety and the curiosity of the other passengers," she smiled.

"And Nat Goodwin?" was suggested.

"What is the meaning of all this newspaper talk about Mr. Goodwin pursuing me all through Europe?" she demanded. "I have not seen him anywhere abroad. I can't imagine why he should want to follow me. I've filled my contract with him."

"Mr. Goodwin is a great admirer of yours," was suggested.

"Our business relations have been most friendly," said the ex-actress, "but they are ended. My thoughts are in the west just now. You know I am going to be married to Mr. MacMillan out in Berkeley on June 10."

She explained that though the MacMillans were from Salt Lake, his mother had lived in the California college town for several years. The marriage ceremony will be performed in her home.

"Have you made your final stage bow?" Mrs. Goodrich was asked.

"That is something that no one can tell," she smiled. "It is not likely that I will want to go back to the stage."

She was told that Mr. MacMillan

was quote das saying that he would provide her with a private car and the best company that could be signed, if the stage called her.

"I hadn't heard of that," said Miss Goodrich, "but I'll bet Harry would do just that if I asked him."

Then, in confidence, and not for publication, she enthused just a little over the big westerner who has won her heart.

That was a rumor about the Hoboken pier that Miss Goodrich had received bay news in a telegram said to be from Mr. MacMillan. She nearly fainted while coming down the gangplank. She denied the bad news and blamed her weakness on a severe attack of seasickness.

Miss Goodrich started west at once.

## THE HOOSIER VETERANS

Annual Encampment of the G. A. R. at Kokomo.

Kokomo, Ind., May 19.—With streets and public buildings decorated as never before, the Stars and Stripes floating from scores of edifices, bands playing and the life and drum corps sounding a war-time note, Kokomo today gave a glorious reception to the Hoosier veterans and the thousands of other visitors who are here for the twenty-ninth annual encampment of the Indiana department of the Grand Army.

The opening session was held today and business meetings, campfires, addresses by prominent men and scores of amusement features will mark the remaining two days of the reunion. The hotels are crowded and scores of homes have been thrown open to the entertainment of the veterans.

## S.S.S. CURES BLOOD POISON A SAFE HOME TREATMENT

In S. S. S. nature has provided a certain, safe, home cure for Contagious Blood Poison. It is a medicine made entirely of roots and herbs of recognized blood-purifying value, and is the one medicine which is able to get down to the root of the trouble and remove every particle of the virus, and at the same time benefit and build up the system and general health. No harmful effects ever follow its use, as is so often the case when strong mineral medicines are used. As soon as the system gets under the influence of S. S. S. the disease begins to improve, and when the remedy has thoroughly purified the blood and driven out every trace of the poison, no signs of the trouble are ever seen again. The general manifestations of Contagious Blood Poison such as falling hair, copper-colored spots, ulcerated mouth and throat, sores and ulcers, etc., are merely symptoms of the poisoned condition of the blood, and in most cases respond quickly to local treatment, while S. S. S. is doing the necessary work of cleansing the blood. Our "Home Treatment" book is of great assistance along this line. It is a complete guide for treating the trouble, containing instructions for the different stages of the disease, and also valuable suggestions about the local treatment, that will be most helpful in effecting a cure. We will be glad to send a copy of this book, free of charge, to any who desire it, and if special medical advice is wanted our physicians will take pleasure in supplying it without cost to the patient. If you are suffering with Contagious Blood Poison you can cure yourself in the privacy of your own home by the use of S. S. S., an absolutely safe remedy.

## PLAYED A JOKE ON WIFE

WILLIAM S. BREWER, ONCE HEAD OF A NEWS BUREAU IN NEW YORK CITY.

## IS DEFENDANT IN A DIVORCE SUIT

The Evidence at the First Trial Was Sensational, but a Mistrial Resulted—Case Comes Up Again Tomorrow.

New York, May 19.—William S. Brewer, publisher and inventor, will probably be afforded another opportunity tomorrow to recite the details of the clever ruse by which he outwitted detectives employed by his wife, Edith Ainslie Noble Brewer, and turned the divorce suit instituted by that lady into a roaring farce. At the former hearing Justice Platt declared a mistrial and the suit is scheduled for retrial tomorrow.

At the previous hearing Brewer recounted a tale that should make the shade of Boccaccio and his modern French imitators hang their heads in shame at their lack of imagination and literary finesse.

According to Brewer's story, he made a trip to Pittsburgh last January, and suspected that he was being followed by spies in the employ of Mrs. Brewer, who was anxious to secure evidence to be used against him in a suit for divorce. Being of an obliging nature, he decided to furnish the "evidence" to order, and wrote to his lawyer in New York, outlining a plan which for sheer audacity and originality has seldom been equaled in literature or life.

The details of this scheme are told in the letter from Brewer to Harry Eckhard, his attorney:

"My Dear Eckhard: I have seen several parties that seem to be traveling with me, and I have tried to detect if they are following me. I have a scheme to find out, which I hope will meet with your approval. I will go to New York, arriving at 8 o'clock Saturday evening. I will meet a lady in the parlor of the Astor house. Cedric, my son, will be there with the lady and will introduce you. When I come I will not recognize you, but will speak to the lady and register. 'U. A. Reaf and wife,' which means 'You are a fool.' I'll register so it won't be very plain. The lady will go up on the elevator with me and go down another way, when you and Cedric signal that no one can see her depart. Now, you can arrange for a room for me that has a connecting room, so that you and Cedric and any witnesses you want can be in the connecting room while they (the detectives) watch or break in on me."

Brewer's little plan to confound his wife's detectives worked like a charm. The fly-cops, it is said, secured a room opposite that of Brewer, and stood watch during the night, while Brewer and his friends made merry and waited for the grand dejeuner. The spies did not break in to the room, however, but a short time later the divorce suit was brought.

During the previous hearing, which ended in a mistrial, an attorney for Mrs. Brewer testified on oath that he had seen a woman coming from the room occupied by Brewer. The latter, however, produced a large number of witnesses to prove that he had spent the night with male friends, and that the "woman in the case" had been escorted out of the hotel immediately upon playing her part in the little drama of domestic infidelity.

A gentleman of the old school appeared very austere when wearing his old gold-rimmed spectacles. People do not wear glasses now for appearance; they wear them for real comfort. For the perfect fitting kind you should go to C. H. Bard, Jeweler and Optician.

Dear Sir: I hereby offer my resignation as an advertisement to your paper, it being a pamphlet of such small consequence as not too benefit my business by taking it. What you need in your sheet is brains and someone to rattle up news and rite editorials on sensible topics.

No mention has been made in your sheet about me doing a big shoe repair business, or that I handle sample spots, regular stock & second hand me down shoes, which I can sell cheap. You steniously ignore the fact that I can put on souls for 35c. This is why your sheet is unpopular. If you don't want to publish such knavery in your sheet, I don't want sed sheet.

## ELECTRICIANS OF NATION

The Thirty-First Annual Convention in Chicago.

Chicago, May 19.—Over a thousand members of the National Electric Light association, including some of the foremost wizards of electricity in this country, are in attendance at the thirty-first annual convention of the organization, opened today at the auditorium.

President Dudley Farrand, of Newark, N. J., will preside at all the sessions, which will extend through four days. A daily paper devoted exclusively to electrical subjects will be published during the convention.

Among the men of world-wide fame who are members of the association are Marcel Deprez, of Paris; Professor Fujicka, of Japan; Thomas A. Edison, Nicola Tesla, Professor Yoshimura, of Japan; J. E. Crompton, of London; John T. Sprague, of England; Professor Sylvanus Thompson, of London, and Dr. Arthur Thompson, of Harvard. Papers on electrical subjects by several of these distinguished authorities will be read before the convention.

An electrical exhibition, covering 7,500 feet of floor space, is being held in connection with the convention. All of the latest machinery and appliances known to the electric lighting and power business are on display.

## COTTON MEN IN RICHMOND

The American Manufacturers' Association Tomorrow.

Richmond, Va., May 19.—Millions of dollars invested in the cotton industry of the nation will be represented at the annual convention of the American Cotton Manufacturers' association, which opens here tomorrow.

Every train into the city today brings many delegates and the meeting promises to be the most important, from a commercial standpoint, that the capital of the Old Dominion has entertained in years.

Managers of nearly all the cotton mill companies of the south and many in New England are members of the association. Among the subjects slated for consideration are the tariff, cotton goods trade in the Orient, inland waterways, textile schools, banking and currency and merchandising.

## Armor-Plated Whales.

The remarkable fact that the earliest known ancestor, or primitive type, of the modern whale bore heavy armor on its back, in the form of strong, bony plates, has recently been set forth by the German paleontologist, Dr. Abel. The plates occasionally found associated with the remains of the primeval form of whale, have generally been regarded as having belonged to gigantic turtles, but the German investigations show that they were part of the skeleton itself. They resemble in their character the impenetrable bony shells of the huge glyptodonts that formerly inhabited South America.

The suggestion is made that at the time when they carried armor whales were amphibious creatures, living on the coasts and needing special protection from breakers and from sharks.

## Send Wives to Colonies.

In the German colonies there are large tracts of land, larger even than Germany, where men and women could make a good living. At present there are about 10,000 men in these colonies and only 1,000 women. The German Colonial Union has been organized under the patronage of the grand duke of Mecklenburg, nearly every member being the wife of a government official or army officer. The union is working to interest women in the colonies and to help them to emigrate. Many German women have been sent to make wives for the colonists. The union also looks forward to helping families by establishing schools and other necessary aids to good living.

## Great Strata of Coal.

It is announced from Hazleton, Pa., that the Lehigh Valley Coal company has opened at Lattimer what is believed to be the largest stripping in the world—a solid bed of anthracite, 1,300 feet wide and 30 feet in thickness, extending from Lattimer to Drifton, a distance of at least six miles. It is estimated that with an output of 500 tons a day it would require steady operation for 250 years to exhaust this newly discovered deposit.

## A Far-Fetched Argument.

"The earth," remarked the professor, "pursues its mighty pathway through space without interruption and on what you might call schedule time."

"Which," remarked Mr. Dustin Stax with confident emphasis, "goes to show what a good thing a perpetual franchise is."

Insures a fair, square and honest deal. It characterizes the policy of Dr. Pierce as relates to the composition of his time-proven and most popular medicines. Their ingredients are on each bottle-wrapper, attested under oath and printed in plain English. Dr. Pierce's Favorite Prescription is the only medicine designed for the cure of woman's peculiar ailments and sold by druggists, the makers of which publish on each bottle-wrapper what the medicine contains.

Dr. Pierce's Favorite Prescription contains no alcohol, or no narcotics or other harmful or habit-forming drugs, as will be seen from the list of ingredients. It contains only such native medicinal roots as are most highly recommended by leading medical writers and practitioners of all the several schools of practice, for the cure of woman's delicate and peculiar ailments. It is safe for women to take in any condition of the system, as it assists Nature in restoring the healthful action of all the organs distinctly feminine.

Nature's own cure. In fact, "Favorite Prescription" is Nature's own cure for the many derangements and weaknesses peculiar to women. It is advised for no other diseases.

If you are a weak, tired, nervous, overworked, broken-down, pain-racked woman, either young, old or middle-aged, suffering from frequent headaches, backaches, dizziness or fainting spells, gnawing or distressed feeling in stomach, perhaps see imaginary specks, or dark spots floating before the eyes, have dragging-down or heavy feeling in lower abdomen, or pelvic region, with, perhaps, pelvic catarrh, or other symptoms of functional or organic affections of the distinctly feminine organs, then you will make no mistake if you resort to the use of Dr. Pierce's Favorite Prescription. The most advanced medical science knows no better agents for the cure of all such diseases than are happily and harmoniously combined in this widely-famed "Prescription" of Dr. Pierce.

You can't afford to accept any secret nostrum of unknown composition and of questionable merit as a substitute for this professionally endorsed and time-tested remedy of KNOWN COMPOSITION, simply that some unprincipled dealer may make a little larger profit. Don't expect it to perform miracles, but give it a fair, persevering trial and it is not likely to disappoint you. It won't "dissolve tumors"—no medicine will. It will cure a larger percentage of all curable ailments which especially afflict womanhood than any other medicine sold by druggists for that purpose.

As to Dr. Pierce's Golden Medical Discovery it has a very large range of application, yet it is by no means recommended as a "Cure-All." It possesses marvelous alternative, or blood cleansing, properties and is at the same time a most invigorating tonic, or strength giver. It exerts a specific, cleansing, soothing and healing effect upon all the lining mucous membranes of the system; hence, its great curative value in all catarrhal affections, no matter where located.

In Chronic Nasal Catarrh, it is well to cleanse the passages two or three times a day with Dr. Sage's Catarrh Remedy fluid, while persisting in the use of the "Golden Medical Discovery" for its tonic and specific curative effects upon the diseased mucous membranes. It will cure a very large range of diseases in curing indigestion, dyspepsia, weak stomach and "Liver Complaint," or biliousness. Even ulceration of the stomach and bowels has in thousands of cases been cured by it; also obstinate chronic diarrhea. In addition to all the foregoing, not the least valuable of the marvelously efficacious properties possessed by the "Discovery" is the unequalled regulating and strengthening effect exerted by it over the heart's action. It has made some wonderful cures of very pronounced valvular and other affections of that organ.

The reason why "Golden Medical Discovery" cures so wide a range of diseases is made plain in a booklet sent free on request, mailed to Dr. R. V. Pierce, Buffalo, N. Y. If interested, send for it.

The powerful alternative or blood purifying properties possessed by the "Discovery" will naturally suggest its use for the cure of blotches, pimples, eruptions; as eczema, salt-rheum, and other skin affections in all of which it has made remarkable cures; also in scrofulous sores and old, open ulcers, or eating sores. To heal the latter, use Dr. Pierce's All-Healing Salve as a local application, while taking the "Golden Medical Discovery" to correct the blood and cleanse the system. A box will be mailed to any address on receipt of fifty-four cents in stamps. If your druggist don't have it in stock, address Dr. Pierce, as above.

Dr. Pierce's Pleasant Pellets are the original Little Liver Pills, first put up by Dr. Pierce over 40 years ago. Much imitated, but never equaled. Easy to take as candy.

### CHICAGO CONVENTION DAY

No. Liquor to Be Sold or Portraits  
Displayed.

Chicago, May 18.—The subcommittee on arrangements of the republican national committee passed a rule Saturday which puts the Coliseum, where the convention is to be held, in the prohibition column. It declares that "no liquor shall be sold, served or brought into the convention hall either at the committee meetings or during the convention week."

The committee also placed a ban on portraits as adornments for the walls of the hall, and the decorations, according to the present plan, will be confined to flags and bunting.

The reason given for the latter prohibition was the number of favorite sons whose pictures delegates might

insist upon having placed and the jealousies and friction that might grow out of the placing of them.

The committee also decided to authorize Chairman New to arrange for a parade of the marching clubs which are expected from all parts of the United States.

New Peril for French Navy.  
France faces a new peril in opium  
—not new in the strictest sense, but  
assuming new proportions, as evi  
denced in the recent trial for treason  
of the naval officer, Ulmo. French  
naval officers say that the use of  
opium, smoked, is general among both  
officers and men of all ages, though  
it is asserted by them that officers  
do not indulge their taste in this way  
while on the sea. Apologists even as  
sert that the "moderate" use of the  
drug, "with frequent and long inter  
ruptions," is a state tonic. This frank  
ness betrays a state of mind of serious  
import. How to check the use of  
opium and how to inculcate in the  
navy a sentiment against it is a big  
problem.

### NEW DEVICE FOR AUTO DRIVERS.

Silver Tones of Trumpet Used to  
Make Pedestrians Jump.

The salesman displayed a silver  
horn similar to a trumpet—a silver  
trumpet with three stops.

"In automobilism this is how the  
only thing," he said. "The weird siren  
wail, the gruff honk-honk, the shrill  
whistle, all have been superseded by  
the silver note of this trumpet which  
you blow yourself."

He put it to his lips and blew a  
revelle.

"You must blow it yourself," he  
said. "The instrument is not to be  
worked with a rubber ball. It must  
be put to the lips."

"Something like coaching, eh?  
Only, in coaching it is the groom who  
blows the horn, but in automobilism  
the owner blows it, taking great pride  
in his skill."

"All over France, as the great shin  
ing cars rush along, you hear brief  
snatches of beautiful musical phrases,  
and you see, beside the chauffeur,  
a proud young man in a sable coat, play  
ing his trumpet with passionate ab  
sorption."

"Sometimes it is a girl who handles  
the trumpet. That is indeed a pretty  
thing to see—a rosy, yellow-haired  
girl, let us say, in lustrous black seal  
skin, holding the trumpet to her red  
lips, and giving you, as she goes play  
ing, a roguish glance out of her  
clear blue eyes."

## BAPTISTS IN OKLAHOMA

ANNIVERSARY WEEK IN THE ME  
TROPOLIS OF THE PROH  
IBITION STATE.

### OPENED BY WOMEN'S HOME MISSION

Next Sunday the Baptist Young Peo  
ple's Union of America Will  
Have Special Services—  
Other Features.

Oklahoma City, Okla., May 19.—  
Oklahoma City is today the Mecca of  
hundreds of distinguished Baptist  
clergymen, laymen and missionaries,  
who are flocking to the metropolis  
of the new state from all over the  
world to take part in the various  
conventions which will mark Baptist  
anniversary week.

The formal program will be inaugu  
rated tomorrow with the meeting of  
the National Women's Baptist Home  
Mission society, when well known  
women from all parts of the country  
and from foreign lands will speak.

The Northern Baptist convention  
will assemble on Thursday, and on  
Friday the American Baptist Home  
Mission society will open its seventy  
sixth annual meeting. The American  
Baptist Publication society, the Bapt  
ist Forward Movement for Mission  
ary education and other denomina  
tional organizations will also hold  
sessions. A special feature of these  
meetings will be a discussion of the  
missionary work of the church among  
the Indians of the southwest and  
many redskin converts will be in at  
tendance.

Next Sunday the Baptist Young  
People's Union of America will have  
special services, at which the work  
of the society will be discussed by  
officials and members from all over  
the country.

Among the important matters to  
be considered is that of the perma  
nent organization of the Northern  
Baptist convention, which provision  
ally organized last year at Washing  
ton, and its relation to the various  
missionary organizations of the de  
nomination. The scope and aim of  
the Laymen's Missionary Movement  
will also occupy much attention.

### HIS TYPEWRITER WAS COSTLY.

Mr. Hankinson Might Claim to Have  
Paid Record Price.

"One hundred dollars seems an  
awfully high price to pay for a type  
writing machine," said Mr. Hankinson  
who has just bought one. "It may  
seem so to you," answered his friend  
Mr. Hankinson, "but I have one at  
my house that cost me \$750, and I  
don't suppose it's half as good as  
yours."

"You needn't tell me such a—"  
"It's a fact," broke in the other.

"Why, how in the world—"  
"Well, I'll tell you. A year and a  
half ago I bought an automobile for  
\$600. After I had paid a hundred and  
fifty for repairs, storage, fines and  
other expenses connected with it, I  
traded it for a suburban lot."

"The lot proved to be in the middle  
of a swamp, and when a real estate  
man offered me a horse and buggy  
for it, I took him up."

"The horse ran away one day, and  
smashed the buggy into kindling wood.  
I traded the horse for a gold watch."

"The watch wouldn't keep good  
time, and I swapped it for a bicycle.  
One day I fell from the bicycle, and  
put a finger out of joint. Then I ex  
changed the machine for a second  
hand typewriter."

"I see."  
"And I've no use for the typewriter.  
Do you know of anybody that would  
give me a good dog for it?"—Youth's  
Companion.

### DICKENS AND THE THEATER.

Charles Dickens was a great patron  
of the theater. He allowed himself  
one night to be taken to the play by  
a friend who was interested in the  
piece which happened to occupy the  
boards. The man in charge of the  
door would not admit them without  
payment, but after awhile the authori  
tative official was found and the  
necessary permission secured. The  
performance, unfortunately, proved to  
be very dull, but for the sake of his  
friend the famous novelist endured it  
with stoical calmness. In leaving,  
however, he stared about him and re  
marked with simple pathos: "I am  
looking for that kind-hearted man who  
was not for letting us in. I should  
like to give him a shilling."—Dundee  
Advertiser.

### NATIVE AMERICAN WIT.

During the last session of congress a  
newly appointed representative called  
on a brother congressman to ask him  
to support a certain measure. The new  
representative is an accomplished  
member of one of the well-known In  
dian tribes.

The elder member, with a patroniz  
ing air, smiled his disapproval of the  
request made, and asked: "How did  
they happen to send you to congress?"  
"Well, you know, the country never  
sends its best men to congress," quick  
ly replied the Indian representative.—

### DIDN'T TAKE ANY MORE NOTES.

Colored Preacher's Experience Had  
Taught Him to Prefer Cash.

A northern minister, who was spend  
ing the winter in the south for the  
benefit of his health and at the same  
time pursuing with accustomed vigor  
the work of his church among the  
whites of the Piedmont section of up  
per Carolina, devoted much of his  
spare time to the study of conditions  
among the colored people. It was in  
a prosperous rural community, where  
the two races are about numerically  
equal, that this incident occurred.

One morning while driving along the  
public road the minister met a negro  
preacher of the neighborhood, of  
whom he had seen but little, but  
whose confidence he had apparently  
already won. The negro was what is  
commonly called a "locus" preacher.  
The conversation, at first varied with  
comments upon the little things of  
common interest, naturally drifted to  
the subject of religion.

"Now, tell me something of your  
work," asked the minister. "Do you  
take notes for your sermons?"

"Wa-al, no," admitted the brother in  
black cautiously. "I useter be guilty  
of dat, for a fact, but I se refaimed  
by 'sperience. Since I come to know  
dese niggers at dere rate wuth, I  
quies de cash. Notes is no good

## FORCE TOBACCO TRUST

PROCEEDINGS COMMENCED IN THE UNITED STATES CIRCUIT COURT.

## UNCLE SAM AFTER BIG COMBINE

It is Controlled by the Ryan Syndicate, Which First Organized the Union Tobacco Company Then the American.

New York, May 19.—Proceedings which may result in the entire dissolution of the \$500,000,000 combine which practically controls the tobacco business of the country were today commenced in the United States circuit court. The case of the government against the American Tobacco Co. is set for hearing today, and while the brilliant legal talent employed by the trust may be able to ward off the blow for a time, it is alleged that sufficient evidence has been produced to bring about the forcible dissolution of the combine by the government, acting under the Sherman anti-trust law.

In addition to the American Tobacco Co., the government sues names as defendants more than sixty allied and subsidiary companies, and about twenty individuals connected therewith. Among the concerns affected are the American Cigar Co., the United Stores Co., the American Snuff Co. and the American Licorice Co.

The American Tobacco Co. was incorporated Oct. 19, 1904, in New Jersey, as a consolidation of the American Tobacco Co., the Consolidated Tobacco Co. and the Continental Tobacco Co. It has \$40,000,000 common stock and \$78,700,000 preferred stock. The preferred stock has no voting power, that being solely vested in the common stock, which is limited to 6 per cent earning power. According to a statement by Special Prosecutor McReynolds, the evidence gathered by the government shows that the American Tobacco Co., with its \$274,000,000 of assets, and the subsidiary companies, with their \$100,000,000 of assets, together with the British-American Tobacco Co., with its \$100,000,000 of assets—making nearly \$500,000,000 in all—are controlled by eight men or estates.

The eight men, or estates, by a characteristic exercise of "high finance," control the whole \$500,000,000 combine through their ownership of a majority of the \$40,000,000 common stock of the American Tobacco Co., the parent concern. To do this, they need hold but \$24,000,000 of the stock.

The eight men, or estates, are Jas. B. Duke, Thomas F. Ryan, Anthony N. Brady, Benjamin F. Duke, Col. Oliver H. Payne, the estate of the late William L. Elkins, of Philadelphia; and the estate of William C. Whitney.

Ryan owns 60,000 shares of the common stock and drawn an income of nearly \$2,000 a day, or \$600,000 a year, from his trust holdings. Col. Payne owns 52,000 shares, the Elkins estate owns 10,000 shares, President Duke holds 15,000 shares, and George Arents, of this city, one of the original organizers, holds 12,000 shares. The trust has been doing, until the present slump, a tremendously profitable business, paying as high as 22 per cent dividends. The dividends on the preferred stock are limited in amount.

The trust is controlled by the Ryan syndicate, which first organized the Union Tobacco Co., and then clubbed the American Tobacco Co. into absorbing them at a fancy price, after which the Ryan crowd proceeded to snatch the reins from those who they found in power.

The executive brain of the trust is President Duke, who began life in the south without means. The financial brains of the trust since W. C. Whitney's death, has been Thomas F. Ryan.

The tobacco trust has a practical monopoly of the cigar, cigarette, cheroot, snuff, licorice and chewing and smoking trade in North and South America and Great Britain.

## PLENTY OF PROOF

From People You Know—From Sedalia Citizens.

The greatest skeptic can hardly fail to be convinced in the face of evidence like this. It is impossible to produce better proof of merit than the testimony of residents of Sedalia, of people who can be seen at any time. Read the following case of it:

P. F. Tomlinson, paper hanger and decorator, of 1515 East Fifth street, Sedalia, Mo., says: "I have had no lumbago or lameness in my back since I was cured of this trouble five years ago by Doan's Kidney Pills procured at the W. E. Bard Drug Co. The cure in my case has been permanent. I gave a testimonial some three months afterwards and have had no reason to change my opinion of Doan's Kidney Pills, and now after an interval of five years I reiterate my confidence in this remedy and recommend Doan's Kidney Pills as an excellent medicine for relieving back ache and kidney trouble."

## Spit Is Feared in Michigan.

Lansing, Mich., May 19.—Bryan is the rock on which the Michigan democracy threatens to split when the state convention is called to order here tomorrow.

Sentiment among the delegates who are gathered in the hotel lobbies today is about evenly divided between the Nebraska and Governor Johnson, of Minnesota, and a warm fight between the two factions is expected when an attempt is made to pledge the delegation to Bryan.

## A WAR ON LABOR UNIONS

BY THE NATIONAL ASSOCIATION OF MANUFACTURERS TO COMMENCE SOON.

## POLITICAL METHODS TO BE USED

An Aggregate Capital of Fifteen Billion Dollars Will Be Behind the Movement, So a Press Dispatch Alleges.

New York, May 19.—A determined warfare on all labor unions, which will have the support of the 3,000 members of the National Association of Manufacturers, representing an aggregate capital of fifteen billion dollars, will soon be commenced.

This action was determined upon at today's session of the association, which is holding its annual convention at the Waldorf-Astoria. Political methods will be used by the manufacturers in the fight, which will inject a new and vital issue into the presidential campaign.

According to President James W. Van Cleave, the membership of the association is practically unanimous in the matter of fighting the unions.

It is alleged that of the 30,000,000 laborers in this country less than 1,500,000 are affiliated with the American federation of Labor, and that any determined stand against what is called the "tyranny" of organized labor will receive the support of the great majority of these unorganized workmen.

It is stated that the association will not attempt to disrupt the unions, but will make its fight against some of the principles which the unions stand for and which are obnoxious to capital. Among these are the closed shop, the boycott, sympathetic strikes, apprenticeship restrictions and compulsory use of the union label.

New York labor leaders are apparently not alarmed by the proposed warfare of the association and declare that it is but another outburst of the spirit of vain antagonism to unions which has heretofore found feeble expression in citizens' alliances and similar bodies.

## One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

## TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the approval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

## CASE OF TRAIN WRECKER

W. G. COX, WHO DID A JOB NEAR OTTERVILLE, ON THE MISSOURI PACIFIC.

## WAS CALLED IN BORNVILLE TODAY

Defendant Pleaded Not Guilty and Trial Went Over Until the Next Term of Court—Bond of \$2,000.

W. G. Cox, the confessed train wrecker, whose attempt to wreck Missouri Pacific train No. 4 on the Otterville hill some time ago caused the wreck of a fast freight train, wherein the engine and seven cars were ditched and several trainmen seriously injured, was arraigned in the Cooper county circuit court today, facing the charge of train wrecking.

Cox entered a plea of not guilty and the case was continued until the next term of court. Bond was fixed at \$2,000, and the defendant expects to be able to give it tomorrow.

Cox was a seedy-looking wood sawyer from Franklin Junction, who baffled the cunningness of the Missouri Pacific secret service department for several days following the wrecking of the train.

After removing a rail, which he confessed he did with a view of flagging No. 4, citing the passengers on the train how he had saved their lives and possibly being rewarded, he espied an unexpected freight train coming in an opposite direction.

Hurriedly he attempted to stop the approaching train, but owing to the limited distance he dropped his flagging apparatus, a firebrand, and ran from the scene.

Detectives McHugh and N. P. and W. J. Kemp were notified and immediately began to work on the case, finally capturing the train wrecker and making him confess, after combining each bit of evidence gathered from the affair.

Sam Majors, of Fayette, the democratic statesman, is defending Cox, while W. F. Johnson, prosecuting attorney of Cooper county, is conducting the state's side of the case.

## IN RAGE, KILLED FATHER

Son Was Angry Because Father Announced His Coming Marriage.

New York, May 19.—Because he had announced that he was to be married again, George Sterry, aged 72 years, was shot and killed today by his son, George, Jr. Immediately after the killing the son committed suicide.

The older man was a prominent member of the large wholesale drug firm of Weaver & Sterry. He was engaged to marry a young school teacher of this city.

## MORE CARS ARE RUNNING

Although Many Disturbances Occurred Car Service Increases.

Cleveland, May 19.—Notwithstanding the widespread disturbances which occurred in various parts of the city last night, the Municipal Traction company today claimed to have

more cars in operation than at any time since the strike began. Cars were run on all lines today without any serious interference.

A conference between President Dupont, of the Traction company, and the state board of arbitration began at noon. It is reported that the union may concede one point asked by the company, that being that the men shall return to work as "new men."

## Blew Up Another Car.

Cleveland, Ohio, May 19.—Another street car was blown up today when dynamite was placed on the tracks of the Superior avenue line. The car was crowded with passengers and a panic ensued, but no one was injured.

## TO DEDICATE A CHURCH

M. E. SOUTH, AT HUGHESVILLE, AT 11 O'CLOCK NEXT SUNDAY, MAY 24.

## THE REV. W. F. MURPHY TO PREACH

He's General Secretary of the Board of Church Extension and Makes His Home at Louisville, Ky.

The new M. E. church, South, building recently erected at Hughesville will be dedicated next Sunday, May 24th, and extensive arrangements are being perfected to make the occasion a memorable one.

Rev. W. F. Murphy, of Louisville, Ky., who is the general secretary of church extension of the M. E. church, South, will deliver the dedicatory sermon at 11 o'clock, and will preach again at 2 p. m.

Between the services an elaborate basket dinner will be served on the grounds and a cordial welcome is extended to all to attend.

The new church building is one of the best built and finest finished country churches in the county and reflects great credit on the membership and friends who contributed so liberally to the fund for its erection and completion. It will be quite an addition to the town of Hughesville, and the surrounding country as well. The attendance at the services Sunday, which will be interesting, promises to be large.

## WAS ACCIDENTALLY SHOT

T. H. Robertson While Putting Up Team on Osage Street.

T. H. Robertson, who resides near Dresden, came to town this morning, and while putting up his team in the wagon yard of J. W. Harding on Osage street, between Second and Third streets, was struck in the right leg by a stray bullet from a 22 calibre pistol or gun and a slight flesh wound was inflicted.

It is not known where the shot came from, but circumstances indicate that it must have been fired from an upstairs room on the west side of Ohio street.

Such carelessness is inexcusable, and it is to be regretted that the party who fired the shot cannot be identified and prosecuted.

## Mrs. Brinton Was Quite Ill.

Mr. and Mrs. John L. Murphy were called home from Jefferson City yesterday on account of the illness of Mrs. Murphy's mother, Mrs. Brinton, 615 East Tenth street.

The illness of Mrs. Brinton shortened Mr. and Mrs. Murphy's honeymoon by several days, it having been their intention not to return home until next week.

Mrs. Brinton's condition was serious last night, but today she is some better. Her ailment is complications.

## THE PASS CASE IS WEAK

THAT AGAINST MISSOURI PACIFIC CLERK AND EMPLOYMENT AGENT.

## WHAT JUDGE POLLOCK SAYS OF IT

Thinks the Prosecution Should Be for Grand Larceny and Not for a Violation of the Hepburn Measure.

Kansas City, Mo., May 19.—Cases in the federal court against Nick Nistas, an employment agent, and Samuel C. Clark, chief clerk to the superintendent of the Missouri Pacific railroad, in which they are charged with violating the Hepburn act in conspiring to issue free transportation to Greek laborers, may never come to trial following a brief argument by Attorney Samuel Moore on demurrer yesterday. Judge John C. Pollock said from the bench:

"I confess I do not see how you are to get at them under these pleadings. I do not like this conspiracy act at all. Clark was not permitted to issue free passes. Nistas could not conspire to make Clark do a thing that Clark could not do. The railway might have issued passes, and it might have conspired with Nistas to issue them, but you say the railroad was ignorant of the whole transaction. So I don't see just now where the conspiracy occurred."

"And there were the Greeks who traveled on that transportation. But they can not be convicted for traveling on passes because, so far as they were concerned, the tickets were not passes. They paid for them. I do not like this conspiracy section."

"Why not take Clark into the state court and try him for stealing?"

"Is that your honor's opinion?" inquired District Attorney A. S. Van Valkenburgh.

"It is not," replied the court. "I ask that both sides submit briefs. My final opinion will be in writing."

## THE DRILL TEAM SOCIAL

Large Crowd Present at the K. and L. of S. Entertainment Last Night.

The social and entertainment given by the social committee and drill team of Queen City council No. 554, Knights and Ladies of Security, in the Royal Tribe of Joseph building last night, was a huge success, a large crowd being present and a most enjoyable time had by all. Dancing, card playing and other amusements were indulged in, after which refreshments were served. The following program was rendered:

Fraternizing address—R. A. Higdon.  
Piano solo—Evelyn Wilson.  
Violin and piano duet—Misses Diana and Helen Sims.

Vocal duet—Miss Francis and George Clark.  
Vocal solo—Miss Wayne Clatts.

## NO CURRENCY LEGISLATION

Members of Congress Do Not Think Two Houses Can Agree.

Washington, May 19.—That there will be no currency legislation at the present session of congress is now believed by many members as almost a certainty. The conference committees of the senate and house have held several sessions in an effort to work out something under the head of the "Aldrich-Vreeland" bill, but it is said they have almost abandoned hope of reaching an agreement.

## REWARDS FOR TAILS OF CATS

Texas Audubon Society Hopes to Protect Birds.

San Antonio, Texas, May 19.—The Audubon society of San Antonio has offered a reward of 5 cents each for cat tails. Not the kind that grow in swamps, but the sort that form the continuation of feline spinal columns.

The Audubonists do not want the cat tails, but they hope by this reward to protect the mocking birds that furnish melody in the spring.

No explanation is given as to why a tailless cat can't catch a feathered songster as well as one that has not lost its tail.

For some months San Antonio has been infested with feline vagrants,

and their vocal efforts have kept many citizens awake.

The liberality with which contributions came in to establish a fund to pay for the cat tails suggests that residents are as anxious to punish Tom and Pussy as they are to save the mocking birds.

## Bryan Carried Alabama.

Mobile, Ala., May 19.—Although the counting is slow, the returns so far reported indicate that Bryan was the choice of the democracy of Alabama at yesterday's primary. Johnson appears to have carried Montgomery, Mobile and Birmingham, the three chief cities of the state.

## IS A GIGANTIC SWINDLE

COURT PROCEEDING REVEALS A FRAUD OF GREAT PROPORTIONS. IT IS SAID.

## WARRANT FOR THE LEADER ISSUED

She Is a Woman and Is President of a Ten-Million Dollar Steel Corporation in the City of Chicago.

Chicago, May 19.—The Inter-Ocean this morning says: A warrant for the arrest of Miss A. L. Skelly, president of the American Steel Car company, charged with the operation of a confidence game, was issued in this city yesterday, following a preliminary hearing of the case against John H. Armstrong, a former millionaire member of the city council.

The testimony brought out in the case reveals a gigantic conspiracy to defraud. Armstrong was on trial charged with fraudulently securing \$5,000 from Charles H. Joy, president of the Holcomb Automatic Engine company, and it was shown that he was the right hand man of Miss Skelly, of the steel company, which is capitalized at \$10,000,000 and was supposed to be backed by eastern capitalists and was claimed to be organized for the purpose of manufacturing steel cars.

## ADOPTED RESOLUTIONS

Local Federation of Musicians Is Opposed to Prohibition.

The Sedalia lodge, American Federation of Musicians, held a meeting last night, at which the usual routine of business was transacted and the following resolutions in reference to the local option election adopted:

Whereas, There will be an election held in the city of Sedalia on June 11th, to determine whether or not the manufacture and sale of liquor shall be prohibited and, whereas, this election is a part of a wide-spread movement which has for its ultimate goal the absolute prohibition of the manufacture and sale of liquors, and believing that the prohibition as advocated today is an invasion of the rights of citizenship guaranteed by the constitution of the United States, and, whereas, the success of such a movement would cause hundreds of thousands of our fellow trades unionists to be thrown out of employment, thus adding to the already dangerously over-crowded market or unemployed; therefore, be it

Resolved, That we, the members of Sedalia local No. 22, American Federation of Musicians of Sedalia, hereby condemn prohibition as being not only inimical to the best interests of the working people in general, but in addition thereto detrimental to the welfare of the people of Sedalia in particular; and be it further

Resolved, That while we are opposed to prohibition, we favor the strictest regulation and control of saloons and the entire liquor traffic, and we call upon our fellow trades unionists to vote against the adoption of prohibition in the coming election.—(Signed) F. C. Hartenbach, President. F. C. Callies, Acting Secretary.

## Iron Ornaments Fell.

An iron window ornament, weighing sixteen pounds, fell from the second story of the Cassidy building, occupied on the first floor by Ralph Blair's hardware store, this forenoon, falling a distance of thirty feet to the street below. No one was injured. Yesterday a similar object fell the same distance.

## B. OF L. F. AND E. MEETS

IT IS THE THIRD ANNUAL CONVENTION OF THE POPULAR ORDER.

## THE AUXILIARY ALSO IN SESSION

'Tis the First Convention of the Latter—The Program Arranged for the Day and Also for This Evening.

Over fifty delegates, representing twenty-eight Missouri lodges of the Brotherhood of Locomotive Firemen and Engine Men, are in Sedalia to attend the third annual convention of the brotherhood, which was called to order at Tillberry's hall, Fifth street and Engineer avenue, by G. H. Headbrink, an engineer from Moberly, yesterday.

Joshua Leach, of Sedalia, founder of the order and past senior grand master, is presiding, and E. C. Whitesitt, of Moberly, is filling the secretary's chair.

The meeting was opened yesterday by Mr. Headbrink, who introduced the founder of the order, Joshua Leach, who delivered the address of welcome, followed with a response by Mr. Headbrink.

The afternoon meeting was secret. An open session was held last night, fully 100 ladies and gentlemen, both delegates and visitors, being in attendance.

Addresses were made by C. C. Lawson, of the Retail Merchants' association, Joshua Leach, W. D. Moore, general chairman of the order on the M., K. & T. system, and Mrs. Agnes Strong, of Boone, Ia.

A musical program, both vocal and instrumental, was also a feature of last night's open session.

This morning the delegates and visitors participated in a trolley ride over the city. This afternoon's session is secret and tonight's session will also be secret.

Tomorrow morning will be an open session, while the afternoon session will be secret, during which the election of officers will take place and other business of the convention will be concluded.

Tomorrow night a banquet and hall, including a dance, will be held at Dobel's hall.

The grand lodge officers are unable to attend, owing to brotherhood business calling them to the east.

Simultaneous with the opening of the B. of L. F. and E. convention, the ladies' auxiliary to the brotherhood, numbering about twenty delegates, representing Parsons, Kan., Moberly, Trenton, Kansas City, Kan., and Denison, Texas, opened their first annual convention at Dobel's hall, Third street and Engineer avenue.

Mrs. Della Smith, president of society No. 225, Pride of No. 78 of Sedalia, called the meeting to order, and following the opening address, Mrs. Agnes Strong, of Boone, Ia., responded.

The auxiliary's convention is much similar to that of the B. of L. F. & E. Open and secret sessions are held, while the trolley ride was participated in by both organizations.

Delegates to the auxiliary convention will also attend the banquet and dance tomorrow night.

## DEATH HIS REFUGE

Accused of Bribery Indiana Official Kills Himself.

Indianapolis, Ind., May 19.—John H. McGaughey, aged 55 years, a former member of the board of county commissioners, today shot and killed himself at his home in Irvington because of the connection of his name with the scandal which developed in the office of the commissioners, where it was shown that he accepted a bribe.

## DARROW ON PROHIBITION

Says Law Applies Only to the Poor. Nothing Touches the Rich.

Toledo, Ohio, May 19.—Clarence S. Darrow delivered a scathing arraignment of the prohibition forces here before an immense audience. In the course of his speech he said:

"Regulate the political conduct of the working man by his personal conduct alone. Destroy the hope of liberty in man and you assassinate the human soul. The working man

needs all the liberty he can get. He does not always use it well, neither does the other fellow."

"These people are like John Calvin. He knew much of the kingdom of heaven, but little of the kingdom of earth. The great trouble of such men is that they attempt to tackle the kingdom of which they know so little."

"Prohibition only prohibits the poor. I can get all the liquor I want if I have money. It does not touch the rich. Nothing touches the rich."

## SPEND ONLY \$4.68 A DAY

DR. HEATON AND EMIL BICHSEL, WHO WILL TOUR EUROPEAN COUNTRIES.

## THE TRIP MAY LAST SIX MONTHS

Interview With the Former Gentleman in the Paris Edition of the New York Herald Will Be Read With Interest.

The Democrat-Sentinel has received a copy of the Paris edition of the New York Herald of May 6, containing the following article of local interest:

Dr. A. H. Heaton, president of the Sedalia, Mo., Automobile club, has arrived in Paris for the express purpose of proving that automobilism on the continent need not be expensive. Dr. Heaton says he can automobile in Europe for an average of \$4.68 a day and live well, and on Saturday or Monday next he will begin a six months' tour to give proof thereof.

This experiment has interested the Missouri State Automobile association and the National Automobile association, of which Dr. Heaton is a member, and since he has arrived in France, the Touring Club de France "I have always held that one could automobile cheaply in Europe," said Dr. Heaton to a Herald correspondent at the Grand hotel yesterday. "Now, what I want to demonstrate is that the average American can travel abroad in an automobile for about three-quarters of a cent a mile, which is cheaper than third class on the railways."

"During the experiment I shall be accompanied by Mr. Emil Bichsel, who speaks German and French fluently. Our itinerary includes France, Italy, Switzerland, Germany, Belgium, England, Ireland and Scotland. This is not a speed contest and we expect to average only about eighty or 100 miles a day."

"We are keeping a strict account of every penny spent. Our automobile, a Ford runabout, bought new for this occasion, cost \$650 in America, or about 3,900 fr., laid down in Paris. Now, even if we smash the auto every two months, it is still cheaper than renting one. However, I have practiced with a Ford runabout for eighteen months and in that time I only paid \$3 in repairs."

"Of course, we have to economize. We are taking with us only two suit cases. We do not want to know only the cities—a Frenchman visiting New York, Washington, Chicago, St. Louis, Denver and San Francisco does not know America—and we are going to mix with the people of each country and report in America on what we see. In Paris we are getting every assistance, as it is realized that our experiment, if successful, should greatly stimulate travel in Europe."

## The Trap Was Overturned.

Lee Montgomery's trap, occupied by Mr. and Mrs. Lee Montgomery and little babe and Mrs. Montgomery's father, B. W. Zimmerman, of St. Louis, overturned in front of Mrs. Mary McArthur's residence, 202 West Fifth street, at 5 o'clock last afternoon, precipitating Mr. Zimmerman and the babe onto the pavement and under the wheels of the vehicle. Owing to the lightness of the vehicle, neither was injured.

## Able to Be Up Again.

Mrs. L. B. Hamilton, who had an exciting experience on a fishing trip to Valda last week by getting lost, in company with a lady companion, and who has been laid up since her return home, is now able to be up and around again, hence the smile of "L. B." as he talks of the local option campaign with his friends.

## BRIDE'S VEIL SELECTED

INSTEAD OF THAT OF A NUN BY YOUNG LADY AT NEENAH, IN WISCONSIN.

## LOVE'S SPARK KINDLED IN HEART

In the Same City a Forgotten Marriage License Shattered a Romance on Day Fixed for the Wedding.

Neenah, Wis., May 19.—Choice of a bridal veil instead of a fleecy covering which indicates the dedication of one's life to the church, marked the romance of one Wisconsin girl's life. Another left Hymen's altar, renouncing the man whom she expected to love, honor, cherish and obey, because he forgot the license.

Odd were the circumstances in each case. Louise Weyenberg, young, pretty and innocent, decided that her vocation in life was to devote herself to religion. She at first made up her mind to take the veil, but the thought of renouncing the world and its pleasures was not at times agreeable. Finally, she decided to enter a convent for awhile to make sure that she would be satisfied in taking this life long step. She chose the Notre Dame sisterhood in Milwaukee.

Here she found among the inmates six sisters of blood as well as of religion, who in secular life had been the Misses Gonnering. They had a brother, Pete Gonnering, who at stated times was permitted to visit them. The sisters had the girl under their tutelage but a few days when the brother came. She met him and all thought of a life of seclusion vanished. The world, with the pleasure of a home of her own, a loving husband and the merry prattle of children at the fireside appealed to her more. So it did to Peter. They are to be married next Tuesday.

The other case is the reverse, so far as marriage is concerned. Samuel Haskins and Mabel Miller had long been lovers. Sam had proposed, been accepted and yesterday was set for the day that was to make him the happy husband of Mabel. Guests were invited to witness the ceremony in the little church and the preacher duly notified.

At the altar they met and clasped hands. The preacher asked for the license, Gasping, Samuel searched his pockets, then suddenly remembering that in his ecstasy of expectation he had forgotten to secure one. He stood helpless, his eyes turning toward his prospective bride. She said nothing nor returned his look. The engagement is broken.

## MADE LOVE TO "HELLO" GIRLS

While They Robbed Pay Station Boxes in Pittsburg.

Pittsburg, Penn., May 19.—Robbing the telephone company with the use of skeleton keys while they made love over the phone to each other is the charge against four couples arrested here.

The police claim that they have unearthed one of the biggest syndicates of thieves yet known; that it had been intended to rob all pay stations throughout the country.

The scheme was to have one young lady at a certain time for a certain fat-looking pay station call up the young man at the other fat-looking point, and while they made love over the phone from their booths they would open the boxes with skeleton keys and get the money.

The telephone company admits losing one-fourth the pay station receipts in the past two weeks.

## On Trial Before a Jury.

Eliza Williams and daughter, Mary Williams, are on trial before a jury in Judge Rickman's court this afternoon, charged with assaulting Tom Carter, the colored attorney, on Henry street Sunday. Attorneys Anamosa and Ayres are defending the woman, while W. A. Collins is assisting Prosecutor Dow.

## Held for Criminal Court.

At the preliminary hearing at Green Ridge Monday, on a charge of venue from Henry county, of Edgar Wood, aged 28, for an assault on Ava Jane Sipes, a girl aged 17, the defendant was bound over to the criminal court.

## COMMODITY CLAUSE SHOULD STAND.

We fail to see any valid reason for  
passing the Elkins resolution to re-  
lieve the railroads from the penalties  
of the so-called "commodity clause"  
of the rate law. This provision of the  
rate act was directed to the very  
good purpose of preventing a railroad  
from being at the same time a coal  
trust. It was conclusively established  
by the government's investigations  
that the mining and transportation  
and marketing of coal, when all done  
by the same corporation, were con-  
ducive to monopoly. Especially was  
this true of the anthracite industry,  
which is restricted to a comparatively  
small geographical area, and  
which is controlled almost complete-  
ly by its carrying railroads. The  
owning railroad has an absolute hold  
on its coal supply from the time it  
is removed by the miner to its pur-  
chase by the consumer. It can re-  
strict or stop production at will. It  
can charge what it pleases for haul-  
ing the coal and it can supply the  
dealer or not, as it chooses. Under  
this system it keeps up prices and  
regulates wages to suit the exactions  
of dividend-clamoring directors.

The "commodity clause" declared  
that carrying companies should di-  
vorce themselves from mining and  
selling and other industrial pursuits,  
and attend strictly to their legitimate  
functions of transportation. In order  
to work no hardship, a period of two  
years was granted before the law  
should take effect, and during that  
time the companies were expected to  
take steps to comply with it. On  
the contrary, however, they have not  
made a move to do what the law com-  
mands them to do. And now that the  
law is to go into effect they appeal  
to congress, through their accredited  
agent, Senator Elkins, for a suspen-  
sion of the act and its penalties. In  
the meantime, they have commenced  
action in the courts to defeat the  
law itself. If the act is unconstitutional  
the courts will so decide, but we  
fail to see why it is less wise today

to divorce the railroads from the  
coal trust than it was in 1906. If  
the "commodity clause" is valid it  
ought to stand along with the rest  
of the act, for it is one of its best  
features.

## HIS CEREAL STORY.

Ferdinand Schumacher, the dead  
"oat meal king," won a double niche  
in the temple of fame. He will rank  
with the Morges, McCormicks and  
Edisons as a hero of invention, and  
among the Havemeyers and Armour  
as captains of industry. Schumacher  
found the American breakfast table  
a chaos of pancakes, hot biscuits and  
pie, and he left a sweet symphony  
of cereals and cream. He was an  
apostle of pre-digestion among a dys-  
peptic people. Under his deft manip-  
ulation, says the New York World,  
the despised grain which Dr. Johnson  
said was food for horses in England  
and men in Scotland was transformed  
into a gastronomic delight.

Will Edinburgh have no monument  
to the Hanoverian immigrant who  
carried abroad the celebrity of his  
"gran fluid," as Davy Balfour's laird  
called it? The pink cheeks of a mil-  
lion school boys testify to the reform.  
Schumacher wrought in the nation's  
dietary. Thanks to him, corn, rye,  
barley and all the farinaceous grains  
now supply bone and sinew to the  
populace.

In a record of Schumacher's achieve-  
ments his contributions to American  
literature should not be overlooked.  
He was the Maccenas of the 10-cent  
magazine. The muck-rakers may have  
had the glory, but the true story of  
the success of many a periodical is  
to be read in the breakfast food ad-  
vertisements. The muse would have  
been on short rations but for the ce-  
reals.

The man who refuses to advertise  
his business because it will cost him  
something is as foolish as the man  
who refuses to be saved from drown-  
ing because he fears he might have  
to pay a reward.

E. H. Harriman is one of those who  
from the stress of "unavoidable cir-  
cumstances" was unable to attend Mr.  
Roosevelt's celebrated conference at  
the White House.

Submarines are declared to be no  
good in winter. In this event, we  
suppose, the nations will have to  
agree not to fight during cold wea-  
ther.

It was the opinion of the French  
justice, it seems, that one of the  
Hart-McKees was just about as bad  
as the other.

## PETS REMEMBERED IN WILLS.

Fortune to "My Red Horse"—Parrot  
Bequeathed to Queen Victoria.

A. T. Newbold, the Salford brewer,  
who has left his greyhound, Wildfire  
II., an annuity of £25, is one of many  
recent testators who have remembered  
their pet animals in their wills.  
A farmer near Toulouse who died a  
short time ago left his entire estate  
to "my red horse," one John Spooner  
of Chicago bequeathed £400 to his  
dog "in recognition of his sympathy  
and tender nursing when I was seri-  
ously ill," and the will of a Mr. Gar-  
land contained this clause: "I be-  
queath to my monkey Jacko the sum  
of £100 per annum, and to my faith-  
ful dog Shock and my well beloved  
cat Tib a pension of five pounds."  
Dr. Christians of Venice left 60,000  
liras for the maintenance of his  
three dogs, a Mr. Harper settled £100  
on his "young black cat," and a  
Frenchman named Souchat left his en-  
tire fortune to his tortoise.

A good man years ago an old lady  
bequeathed her pet parrot to Queen  
Victoria with 100 guineas a year for  
its keep, on the amusing condition that  
"her majesty publicly exhibits it be-  
fore her court twice a year to prove  
that the person entrusted with its  
care has not wrong its neck."—West-  
minster Gazette.

## ONCE WAS ENOUGH FOR HER.

Little Danger of Maid Again Wearing  
Her Mistress' Costume.

"I never went to Florence," said a  
magazine editor of New York, "with-  
out visiting Ouida. This amiable  
woman of genius, with her white  
gowns, her white mittens, her horses  
and her dogs, had many eccentrici-  
ties.

"But in her eccentricities lay al-  
ways a seed of common sense. Take  
her hatred of the décolleté bodice, for  
instance. There's common sense in  
that, isn't there?"  
"Discussing this bodice one after-  
noon at tea, she nodded from the win-  
dow toward a beautiful princess who  
was driving by, Princess Orsini-  
Vecchi.

"This princess," she said, "sum-  
moned her maid one morning and  
complained:

"Dolores, I have been informed  
that you wore my new dinner gown at  
the guides' and cicconnes' ball last  
night. You ought to be ashamed of  
yourself."

"Dolores burst into tears.  
"I was ashamed, madam," she  
answered, wringing her hands; "I was  
indeed. Beppo, my young man, said  
if I was ever seen again in public in  
such a costume, madam, he'd flog  
me."

## ANSWERS MR. TRICKETT

MR. CHAS. BOTZ GIVES SOME  
FURTHER FACTS REGARDING  
KANSAS CITY, KANSAS.

## WHAT PRESIDENT OF COUNCIL SAYS

More Liquor Consumed in the City  
Than When the Saloons Were  
Paying for Privilege of Do-  
ing Business Openly.

It has not been our policy in this  
campaign, nor will it be, to bring  
personalities into it. We are appeal-  
ing to the voters on a broader basis.

But when a man is imported from  
another state who indulges in per-  
sonal abuse and slanders and insults  
a large number of our citizens, it is  
well to know something about him.

Bear in mind that Mr. Trickett has  
no further interest in this campaign  
than the collection of a fee for his  
services. In his address here Mr.  
Trickett said that any man who  
would support the liquor business by  
his vote was a criminal at heart, and  
this sentiment was applauded. This  
is a rather broad and comprehensive  
statement, and it was made with no  
qualifications. A man is best known  
by his neighbors and those with  
whom he comes in daily contact.

The following interviews and state-  
ments are from the Pittsburg Kansan  
of May 2, 1908, a comparatively re-  
cent date, and are vouched for by  
Dr. J. F. Calleg, the publisher:

L. W. West, president of the coun-  
cil of Kansas City, Kas., said: "When  
Mr. Trickett says the city is better  
off financially and morally since the  
saloons closed, he tells an untruth.  
The records in the police court show  
that there are as many drunks as  
ever and the city council has issued  
\$175,500 worth of bonds to meet the  
shortage of the past eighteen months,  
caused by the loss of saloon revenue.  
In my opinion Mr. Trickett is the  
most despised man in the city, and  
if this is doubted let him run for  
office and watch the results."

L. W. Powell, councilman from the  
Fifth ward, said: "If we had a few  
more Tricketts we would be issuing  
bonds every six months, having is-  
sued \$175,500 to meet the deficit  
caused by closing the saloons for  
eighteen months."

T. J. Lyons, councilman from the  
Sixth ward, said: "I am a large own-  
er of property in Kansas City, Kas.  
The only man who has profited by the  
Trickett crusade is C. W. Trickett.  
There is more liquor consumed  
and more drunkenness than ever be-  
fore. It has decreased the value of  
property fully one-half. It has not  
closed the joints, properly speaking,  
but it has cut the city's revenues."

Daniel Sullivan, another council-  
man, said: "If you want to defeat  
any proposition in Kansas City, Kas.,  
today, all you have to do is to say  
that Trickett is behind it. He has  
been the cause of much depreciation  
of property here. Our city is going  
deeper into debt and the burden is  
falling on the shoulders of the tax-  
payers. He has been the cause of  
the depreciation of values and in-  
crease of taxes. Kansas City, Kas.,  
is a city of manufacturers ranking  
seventh in the United States. Our  
population is made up largely of  
laboring men and mechanics who own  
their own homes and pay the burden  
of taxes. We are a city of 100,000,  
and through the actions of Mr. Tric-  
kett we are deprived of revenue that  
would permit us to have the proper  
police and fire protection that a city  
of its size should have. Think of a  
city of 100,000 inhabitants with only  
thirty-six policemen and forty-two  
firemen, including the chief, and yet  
Mr. Trickett informs the mayor that  
he must run the city on its income."

An effort was made Saturday last  
to have Mr. Trickett divide time  
with W. W. Rose, of Kansas City,  
Kas., at the Sedalia theater. It is  
true that the notice was short, and  
presumably the prohibition com-  
mittee was unable to establish commu-  
nication with Mr. Trickett. However  
that may be, the fact remains that  
Mr. Trickett declined a personal  
challenge to debate with Mr. Rose at  
Taylorville, Illinois, during the cam-  
paign in that state, although urged  
to do so by a member of the prohibi-  
tion committee.

Comment on the foregoing is not  
necessary. It is Sedalia that is in-  
terested in this campaign and it is  
Sedalia that must take the conse-  
quences of the election. Do we need  
advice on this question from citizens  
of other commonwealths, whose ob-  
ject of interest in our fight here are im-  
mediate and pecuniary?—Chas. Botz.

## Fr. Gormley to Lecture Again.

A large audience assembled at Sa-  
cred Heart church Sunday to listen  
to a lecture on "Socialism" by the  
Rev Fr. J. W. Gormley. The eloquent  
priest gave a most lucid explanation

that will indeed accomplish much  
good and set many minds right on  
this important subject.

Next Sunday at the 10:30 service  
he will give a lecture on the "Relig-  
ious Troubles of France," and every-  
one ought to hear him.

## Bud Howell's Ten-Pound Boy.

Bud Howell and wife, former Mo-  
berly residents, now of Sedalia, are  
rejoicing over the arrival of a fine  
baby boy at their home at 10:30  
o'clock Saturday morning, May 16, the  
Moberly Democrat.

The youngster tipped the scales at  
ten pounds and when grandpa, M. J.  
Howell, received the news that there  
was another boy in the family it  
made him the happiest man in the  
country.

This is a girl and a boy for Bud and  
the chances are that the grandfather's  
happiness was nothing compared to  
that of the father.

## How to Cure a Bilious Attack.

A bilious attack is caused by the  
fermentation of food in the stomach.  
A dose of Chamberlain's Stomach  
and Liver Tablets will clean out the  
stomach, reduce the irritation and in-  
flammation of the stomach, which is  
the cause of the severe headache,  
strengthen and invigorate the stom-

## Chillicothe Saloons Closed.

Chillicothe, Mo., May 19.—Chilli-  
cothe's thirteen saloons closed their  
doors last midnight, the licenses ex-  
piring at that hour. This is the first  
time in the history of the city that  
there has not been a saloon here, there  
being as high as nineteen at one time.

How Fast Wind Travels.  
Most people at some time or other  
have used the expression "went like  
the wind," wishing to convey the idea  
of extraordinary velocity.

Coming down to actual figures, how-  
ever, the wind is not such a speedy  
traveler after all, says the Boston  
Transcript. The month of March  
more than any other in the year has  
a windy record, so the figures supplied  
by the local weather bureau station  
for the month will do to illustrate the  
fallacy of the expression.

From the first to the thirty-first the  
wind movement as registered at the  
top of the federal building was 8,336  
miles, or an average of 278 miles a  
day for 30 days. Here is an average  
of only 11 1/2 miles an hour, a speed  
which even a slow moving freight  
steamer approaches.

## Education and Matrimony.

A teacher in one of the local grades  
was speaking to the mother of one of  
her girl pupils not long ago about  
Miss's frequent absences from school.  
"You know she won't be promoted,"  
pointed out the teacher, "unless she is  
more regular in her attendance."

"Yes," put in the other, "and I don't  
want her to be promoted. I want her  
to stop school and then when she gets  
older she'll get married, as every girl  
ought to. My two daughters that  
stayed in school aren't married yet  
and the one that didn't finish up at  
school could have been married about  
four times, and when she did marry  
she was only 19. I'm going to take  
this one out of school and bring her  
up right."—Cleveland Plain Dealer.

## Baby's Quilt.

A most attractive baby's quilt is  
made by putting two thicknesses of  
lamb's wool between surah silk. The  
quilting, instead of being made with  
stitches, is caught in place by large  
roses made of ribbon. Ribbon is also  
used in the style of art nouveau to  
decorate the border of the quilt. Usual-  
ly it is made in long green stems, ter-  
minating each petal of the flower be-  
ing a loop of the ribbon caught at the  
point by a single stitch. Quilts of  
such an elaborate design are used as  
coach covers for the baby indoors does  
not wear anything quite so exquisite.

## A Noble Lover.

"Darling," said the American hei-

to marry me for my money?"  
"No, dearest," answered the duke

hold it against you."—Baltimore Ameri-

## Play Has Historic Characters.

Alfred Testoni's new play, "Gloace-  
tino Rossini," which was recently per-  
formed for the first time is described  
as the "life of the great master of  
music." In the fourth act, which is  
laid in Paris in 1860, Richard Wag-  
ner appears as one of the characters.  
He is still unknown and is spoken of  
as the embodiment of "the glorious  
future," while Rossini is spoken of as  
the glorious past. A third in the group  
is Vincenzo Bellini. The "title" part  
was played by Ernest Jacconi.

## WEALTH IN SANDS OF OCEAN.

Cheap Mining the Problem That Has to Be Faced.

From Shasta to San Diego, all the way along the shores of the Pacific ocean there is gold in the black sand which for the greater part of the length of the state, underlies the gray and yellow sand of the beach. This has been known to mining men for a score of years or more, but ever since they found it out they have been completely baffled in all efforts to get it.

The values in the sand are low, not more than 25 cents per ton, and the sea washes heavily over all manner of structures which are set up on the beach to separate the sand from its gold. These were the two principal obstacles to be overcome. To find a machine which would withstand the storms of winter and the tides of summer and at the same time be delicate enough to draw the gold from the black mass of the beach.

At last, however, the riddle has been solved, despite the wrecking of one of the plants with which the work was commenced, and a recent clean-up of one day's run of 1,000 tons of black sand paid \$200 over and above all expenses. The full value of the gold in the sand, could it have been entirely removed, would have been \$250, the actual amount taken out was about \$235 worth, making the cost of handling that 1,000 tons of sand a trifle more than three cents a ton, the cheapest mining yet known to man.—Technical World Magazine.

## LIQUOR MEN START TOWN

STRANGE COMPLICATIONS RESULT OF LOCAL OPTION ELECTION.

## A RIVAL OF WESTVILLE, ILLINOIS

Part of Town in Wet Township Denied Licenses and Saloon Men Get Busy and Plan to Build City a Mile Away.

Danville, Ill., May 19.—As a result of the local option election last April, when Georgetown township, in which the larger part of the mining town of Westville is located, voted dry, and Danville township, in which the rest of the town is situated, went wet, many complications, the latest of which is a townsie fight, have arisen.

After the mayor and council of Westville had refused to grant licenses for saloons in the wet part of town, an effort was made by the saloon men to oust Mayor Dowditt on the ground that he is not a naturalized citizen.

This case is now pending in the courts, but in the meantime an agitation for the establishment of a new town, wholly within Danville township, but lying immediately adjacent to Westville on the north, was begun.

An election was held Saturday, May 16, and the proposition carried with only two negative votes, the establishment of the new town, which will be called Belgium, now being assured.

The next step will be the holding of an election for the organization of the town and the election of its first set of officers. This will be held within the next thirty days. Meanwhile the saloon men will proceed to erect or arrange for their places of business, while preparations for the building of a town hall and a home for the fire department will be begun.

Already arrangements have been made with the Chicago and Eastern Illinois railroad for the establishment of a station and the building of a depot.

The new town is but a little over a mile from the center of the town of Westville, and proposals have been made to some of the leading business men of the latter place to move their stores to the new town.

## Making Good.

There is no way of making lasting friends like "Making Good," and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have not made drunkards.

A good, honest, square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery. It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest, hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, nervousness, faintness, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It's an honest, square-deal medicine with all its ingredients printed on bottle wrapper—no secret, no hocus-pocus humbug, therefore don't accept a substitute that the dealer may possibly make a little bigger profit. Buy on your right to have what you call for.

Don't buy Dr. Pierce's Favorite Prescription expecting it to prove a "cure-all." It is only advised for woman's special ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nerve it is unequalled. It won't satisfy those who want "boozie," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the original Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy—one to three a dose. Much imitated but never equaled.

## BIRD PIANO A NEW INVENTION

Instrument for Training Canaries to Warble Simple Tunes.

Miss Ada de Acosta, lately betrothed to Oren Root, is the clever inventor of no less useful device than a bird piano, says the New York Press. For, be it known, the young woman is at one and the same time a lover of canary birds and a deep student of music. She long ago came to the conclusion that the whistles and flutes used by bird fanciers in training canaries to sing were not as good as they might be.

At last she decided on wind instrument, with or without a reed, was what the trainer needed. The happy thought came to her that a music box would be useful in teaching the golden youngsters to use their voices and she had much success along that line. But the music box was too mechanical for the best results. It was difficult to keep it from rattling away at a rate more rapid than the ordinary bird could follow. So she set her wits to work and evolved the bird piano. The tones are produced with silver wires, which are struck by tiny hammers on the pianoforte principle. By means of the little instrument tunes simple enough for any intelligent canary's understanding can be played as slowly as necessary and with the insistent repetition essential to success in bird training.

## Illnesses of Medical Men.

According to the British Medical Journal physicians as a class are more subject to illness than their fellow men. The Journal adds: "An explanation of this is readily found in the anxieties caused by responsibilities which must weigh heavily on every man of right feeling, in the amount and trying nature of the work the doctor has to do, in irregularity in meals and broken sleep, in exposure to weather and to infection, and last, but not least, in the scanty remuneration which his labor too often brings him. The combined influence of all these causes is sufficient to undermine the strongest constitution long before a man has reached the limit of three score and ten." A comparison of tables compiled by statisticians in different countries gives doctors an average age of 57 years at death.

## To Rid City of Pest.

Tampa's efficient chief of sanitation is determined to rid the city of mosquitoes this summer, or at least eliminate that pest as effectually as it is possible to accomplish that much desired end, with the aid of fish as devourers of the wiggletails which at times infest the cisterns about town and propagate mosquitoes. He has a trio of fishermen catching minnows for this purpose, and proposes to distribute an army of small fry among the tanks and water receptacles around the residences and business places.

The minnows, several hundred of which were caught and placed in a large tank at sanitary headquarters, will be conveyed to all parts of the city, to be used as slayers of the embryo mosquito.

## Such a Mean Remark.

"The old, old story," explained the husband, with a long-drawn sigh, as he laid down his paper. "Another man committed suicide because his home was unhappy."

"And did that make his home any happier?" asked his wife. "Or does the paper say?"

## Postal Work.

Ascum—Say, what is the difference between a fourth-class and a third-class post office; do you know?

Wise—Well, in the former the postmaster always finds time to read all the postal cards himself; in the latter, sometimes he doesn't.

## MOHONK PEACE CONFERENCE

A Three Days' Session Will Begin Tomorrow Morning.

Lake Mohonk, N. Y., May 19.—Advocates of peace from many lands are congregating on the shore of beautiful Lake Mohonk today for the annual conference on international arbitration, which will open a session of three days tomorrow morning.

The program will include a thorough presentation of the results of the second Hague conference and of the recent Central American peace conference, speakers on these topics including James Brown Scott, secretary of the state department and member of the Hague conference; Joaquin B. Calvo, minister of Costa Rica; Luis F. Corea, minister of Nicaragua; John Barrett, director of the bureau of American republics, and Dr. Benjamin F. Trueblood, of Boston. Baron Kogora Takahira, the Japanese ambassador; Richard Bartholdt, president of the Inter-Parliamentary union, and Theodore F. Burton, congressman from Ohio, also have been invited to address the meeting.

The relations of colleges to the arbitration movement will be discussed by President Wheeler of three University of California; President Van Hise, of the University of Wisconsin, and others.

## SELLING LIQUOR TO MINORS

Is the Result in Vigorous Prosecution By Brewers.

Milwaukee, Wis., May 19.—The prosecution of every case of selling of liquor to a minor that comes up in the juvenile courts in every city of the country will probably be urged at the national convention of the United States Brewers' association when that body meets here June 8 to 10.

The success of the plan worked out in Cincinnati, by which brewery officials are made probation officers, has led to similar movements in other cities of the country, all tending to the elevating of the standard of the saloon and the wiping out of the law-violating saloon. In Cincinnati several of the leading brewers were made probation officers. The success of the Cincinnati experiment is leading to a similar move here.

The plan is also under consideration in other cities. The success attained in rooting out the dives in Cincinnati has led to the plan to make the move a national one.

## A MEETING OF PUBLISHERS

Those of the South in Session at Charlotte, N. C.

Charlotte, N. C., May 19.—Business managers and owners of nearly all the important newspapers below Mason's and Dixon's line assembled in the Hotel Selwyn today for the sixth annual convention of the Southern Newspaper Publishers' association.

One of the most important subjects up for consideration is the repeal of the duty on white paper. While the last year has been a prosperous one for the most southern papers, the high price of print paper has cut largely into the profits and it is alleged that the rapacity of the paper "trust," if continued, will threaten the very existence of many papers.

The convention is not without a political bearing, as it enables some of the most influential men of the south to discuss the availability of the various democratic candidates for the presidency and to compare notes as to the political conditions in their respective localities.

## Copper Mines Most Valuable.

"Mining is an uncertain business even at best," said George A. Walker at the Republican. "The most you can say of it is that you are investing your money in a hole in the ground or on the prospects of some one else's ideas being correct. Even when you invest in an established mine which seems to be paying large dividends, you are running the chance of the vein's coming to an end and your stock going down to almost nothing. Of course, this is rather an unusual occurrence and science nowadays can pretty accurately tell what is to be expected from any mine after it has been worked a short time. The most profitable mines, however, are not as might be surmised, the gold mines. The one mine in the United States which pays the largest dividends today is a copper mine. Copper is easier and cheaper to mine than gold, there is generally a much greater output, and less loss from waste or carelessness."—Milwaukee Sentinel.

## Useful Life Nearing End.

China's government has granted two years' leave of absence to Sir Robert Hart, after repeated application for permission to get "one more sight of home and friends before the final adieu must be said," as he wrote, recently to a friend. Sir Robert Hart is 73, and few men have received such world-wide homage. He has been decorated by Belgium, Austria, Italy, Holland, Prussia, Portugal and England, while China, of course, has loaded him with her peculiar favors in the form of buttons and feathers. Speaking of his much-desired leave of absence, Sir Robert Hart wrote: "The months and years are slipping away and both youth and middle age are things of the past."

## Trained Japanese.

Since the wholesale discharge of Japanese servants from duty on ships of the battle fleet (if they really were discharged) hundreds of the little fellows are in New York seeking employment. These "ex-navy ornaments," valets de luxe, wardrobe jewels, "cabin maids," "rot abouts," etc., are thoroughly disciplined. They move noiselessly and their voices are golden—being silent. If these men are hard-up, they do not show it. They are not holding themselves as cheap servants. Only the green ones will accept \$25 a month. A trained valet, butler, general houseworker or handy man about the house wants \$40 or more.

That pain between the eyes may be stopped by wearing one of our perfect fitting eye glasses. Don't delay.—C. H. Bard, Jeweler and Optician.

## Decadence of Wagering in England.

We have lost our love of wagering and perhaps this is not a matter for general regret. Yet it seems to me that there was much harmless merriment in the readiness with which men of all classes staked sums, according to the means at their disposal, to show that they had at any rate the courage of their opinions.

In these strenuous times few have the opinions, and fewer still the money with which to back them.—Fry's Magazine.

## A Different Bird.

A Philadelphia school teacher was having a class in reading, and the subject was how an eagle had carried a small baby out of its cradle and taken it away to its nest on the mountains.

As the story seemed to impress the children, she tried to explain to them that it was only a story—that eagles did not carry off little children. Just then a little hand was raised and a small boy remarked, "Please teacher, the stork does that."

## Prudence.

"So you have determined to civilize our country," said the swarthy native.

"We have," answered the resolute white man. "Now, tell me what feature of civilization interests you most?"

"Well, if you are absolutely determined to civilize us, I'd like to take out some life insurance."

## These Men Get Top Prices.

George E. Spears and Joe L. Cartwright, who own and operate two of the largest and best farms in Heath Creek township, were in the city Monday attending the democratic convention and transacting business in the county court.

In addition to their farming interests, they are two of the most extensive stock feeders in the county, and each feeds and ships many car loads of cattle and hogs to the St. Louis market during the year, their stock generally bringing the best price.

## TO GIVE A HERO A MEDAL

BRAVE POLICEMAN ALSO MAY  
RECEIVE A DESERVED  
PROMOTION.

### SUCH ACTION WOULD BE APPROVED

Will Be Recommended for Gold  
Award and Rank of Sergeant  
for Subduing Maniac on  
High Flag Pole.

St. Louis, Mo., May 19.—Patrolman James H. Omohundro, who overpowered George Gall, a maniac, on the capola on the City hospital at the risk of his life, Sunday, may be made a sergeant. And he may receive the gold medal for the bravest act of the year.

A special report commending Omohundro for his courage and his devotion to duty was received yesterday by Chief Creevy, from Captain Johnson, of the Southard street district.

The report will be referred to the board of police commissioners, who have the power to promote the patrolman or to make provision for a reward in some other manner, and it is likely that Chief Creevy will recommend special consideration for Omohundro, who has a clean record.

The report of the incident made by Omohundro was modest in the extreme, according to Captain Johnson, who said he had heard of the patrolman's bravery from a witness of the struggle on the roof. Captain Johnson made an investigation.

"Patrolman Omohundro undoubtedly is entitled to great credit for his courage," says the report made by Captain Johnson, "and I feel that he deserves official recognition."

The subduing of a crazed man in midair is looked upon by members of the police department as the bravest feat of the year, and it is expected that the gold medal will go to Omohundro in October.

"I admire a man who will leap into a river to rescue a drowning man," said Captain Johnson last night. "Such a man is, indeed, brave. But his act pales beside that of Omohundro, who coolly climbs to a perilous height to capture a maniac, who is armed with a heavy piece of iron, while trained attendants stand around helpless."

Omohundro, who has been a policeman only two years, insists that he was only doing what he was paid to do.

Five other policemen and ten firemen, who had climbed to the roof of the building, kept their distance, one of them saying he "wasn't ready to do yet."

"But that's what I'm paid to do," said Omohundro, "and I told them to boost me up. It was a tough climb to get to the top of the capola, but I got there. And then I won only by a bluff. I yelled to the maniac to look out for the fellow on the other side. He turned his head and I had a chance to get my leg around the flag staff. He struck at me several times with the iron bar."

"I grabbed him by the neck and forced his head down between the flag staff and my leg. It took ten minutes to overpower him, and then I secured him with a wrist strap. Then the firemen brought a rope and I tied it around him and lowered him to the ground."

"But it's all in a day's work. We're paid to take chances."

### Many Were Turned Away.

George H. Olendorf and son, G. F. Olendorf, returned early this morning from Jefferson City, where last night they had the formal opening of the new Airdome. The crowd was immense, and many were necessarily turned away.

### Women Not in Demand.

Mr. Arnold Shanklin, just returned from Panama, says that men who go to Panama seem to think a wife one of the first necessities, but generally they are provided with sweethearts, who either come to them properly chaperoned or they go back to the states for them. The government builds nice six-room houses for the married men, and there is a very pleasant social set being formed. He did not seem to agree with Miss Helen Varick Boswell that old maids or bachelor girls are wanted there, the inference being that the right sort of men are either married or about to be when they go to Panama.

## GIANT WHEAT IS DISCOVERED

Idaho Grain Yields 275 Bushels to  
Acre, Any Season.

Minneapolis, Minn., May 19.—Allen Adams, former resident of Minneapolis, has discovered in Idaho a new kind of wheat that yields 275 bushels to the acre.

The stalks are eight or ten feet high and the kernels twice as large as ordinary wheat. It is either spring or winter wheat, just as the farmer desires to sow.

### GREAT SKIN CURE STIRS EUROPE

Medical Profession Interested in External Wash Which is Producing Remarkable Results.

Instant relief and permanent cures have so invariably followed the use of an American prescription for the cure of skin diseases that European doctors, always zealous to lead in fields of medical knowledge, are still directing inquiries as to the ingredients of this external vegetable remedy.

The makers of the prescription, the D. D. D. Company of Chicago, are replying frankly to such European inquiries that this eczema remedy is simply oil of wintergreen compounded with other vegetable ingredients of known healing power such as thymol and glycerine.

Apparently no case of no matter how long standing can stand against this simple remedy, known as L. D. D. Prescription. Here is a typical letter from Mrs. E. Payne, of East Pittsburgh, Pa.: "I had a horrible breaking out on my legs and feet, and tried nearly all medicines and salves without result. The first bottle of D. D. D. helped me and I secured a complete cure. That was two years ago and I have had no trouble since."

We have investigated the merits of D. D. D. Prescription and believe it to be the best and quickest cure for skin diseases. At any rate, we positively know that it takes away the itch just as soon as you apply a few drops of the soothing liquid. Call for free booklet on care and nutrition of the skin and ask for a cake of D. D. D. Soap.—W. E. Bard Drug Co.

### The Illinois Sunday Schools.

Dixon, Ill., May 19.—With every county in the state represented, and large delegations from Chicago and other cities, the Illinois Sunday School association opened its jubilee convention here today.

There is much jubilation among the visitors over the result of the recent local option elections in Illinois and plans for furthering the cause of temperance will be fully discussed.

Delegates will be sent to the International Sunday School convention, to be held in Louisville next month. The present convention will last three days.

### Accomplishing Results.

When President Garfield was in college he was striving for honors in Latin. His strongest rival for the honors lived in a room directly across the campus from his own. Garfield found out that the rival studied his Latin the last hour before retiring. Garfield adopted the plan of studying his Latin at the same hour. In fact, he studied until the rival turned out his light each night. And then he studied just 15 minutes longer. He won the honors. The 15 minutes extra each night gave him the necessary slight advantage over the other man in the final markings.

The man who puts forth effort accomplishes results. But the man who puts forth extra effort accomplishes greater results.

### Why He Was Invited to Dinner.

"One of Lord Palmerston's colleagues in the cabinet—well known for his love of dining out—asked him why a certain ambassador was constantly asking him to dinner. Lord Palmerston replied:

"Don't you know? His government always pays for the dinner if a cabinet minister is present. The ambassador knows that in you there is a sure find. In fact you pay for nearly half his dinners. The rest are distributed among our other colleagues."—From "Rambling Recollections," by Sir Henry Drummond Wolff.

### South Carolina Still Doubtful.

Columbia, S. C., May 19.—Whether South Carolina will climb into the band wagon of William Jennings Bryan and support his candidacy in the Denver convention will be decided tomorrow when the democratic state convention will convene in this city.

While the rank and file of voters have not manifested a great deal of interest in the matter, a fierce newspaper controversy has been waged over the Bryan endorsement question. Both the Nebraskan's supporters and the anti-Bryan men are claiming certain victory in tomorrow's convention.

### SET FORTH HIS APPRECIATION.

Captain's Naive Testimony to the  
Worth of His Nurse.

Nurses in training have many hard-  
ships to bear, but perhaps none is  
worse than having to appear cheerful  
under all conditions. A sense of  
humor is perhaps as great an asset as  
a nurse can have, for it will help her  
over many a difficulty.

The daughter of a wealthy man up  
state became imbued with the desire to  
know how to earn her own living, and  
to that end she entered one of the  
large city hospitals as a nurse, says  
the New York Press. The work was  
to her liking, and, as she looked on the  
bright side of everything, she was gen-  
erally in a happy frame of mind. Her  
particular "pet" was an old and illit-  
erate sea captain, who was in the sur-  
gical ward with a broken arm which  
would not knit. He was a cheerful  
old fellow, and his droll remarks  
gained for him the good will of every-  
body. One day when the nurse had  
paid him some little attention, he said  
with an appreciative smile:

"Miss L. is the best waitress I ever  
had!"

### Important Find of Old Coins.

In the side of an old well where it  
had lain undisturbed for 2,200 years,  
an earthenware jar containing 500  
pieces of the time of Alexander the  
Great has been found, at Luxor, Egypt.  
One hundred of these were specimens  
of the silver tetradrachm of Alexander  
the Great, a coin corresponding in  
weight to our half dollar. The pieces  
are very thick and are made of silver  
of great purity. The obverse bears  
the head of Hercules in a lion's skin;  
the reverse shows Zeus seated in a  
chair. All bear the name of Alexan-  
der in Greek. Monograms and mint  
marks of great interest were found on  
many pieces of this lot, and some of  
the pieces bore the Greek word for the  
mint marks, designating the towns or  
cities where they were struck. The  
coins are all in very high relief, so  
that only two or three could be  
stacked together without their  
tumbling over.

### AS MEANS OF IDENTIFICATION.

Mrs. Brady's Helpful Hint to Her  
Faithful "Micky."

The Bradys used to drive several  
miles to mass each Sunday in "the  
little thrap" with "th' old gray mare."  
Micky, "the boy," a being of many  
summers, whom custom and a con-  
servative tradition had, in spite of his  
uncertain years, always treated as the  
possessor of perpetual adolescence,  
drove. Next him sat Mrs. Brady,  
decorous in black, while scattered  
about the straw in the body of the  
vehicle, was a large assortment of  
"the children"—Bradys of all ages,  
sexes and sizes, bare-legged and other-  
wise—each exuberant and articulate.  
It remains to this day a disputed  
point among the Bradys as to what  
memory of earlier and more risky  
days induced "th' old gray mare" to  
behave as she did on this particular  
Sunday.

Rounding a corner, she swerved into  
the ditch, and before Micky, the boy,  
could cope with the situation, a pile of  
Bradys, vertical and horizontal, had  
been dumped into the ditch, with the  
little trap turned over and resting on  
top of the struggling heap.

Then, high above the babel of cries  
came Mrs. Brady's voice: "Pull me  
out, Micky, for the love of hivin'! The  
black legs is mine!" — Cleveland  
Leader.

### MORE THAN THEY COULD STAND.

Fish Story Too Much Even for Hard-  
ened Listeners.

"Speaking about showers of fish,"  
said the solemn-looking native faker  
from his seat on the starchbox, "re-  
minds me of the time we were  
marooned on an island in the  
blue Pacific. For two hours  
there was a shower of fresh  
mackerel and, strange to say, they all  
dropped into a salt lake on the moun-  
tainside. That brined them."  
"Whew!" the old codgers chorused  
in unison.

"But that's not the strangest part  
of the story. Ten days later a cyclone  
came along, picked up the brined  
mackerel and dropped them into a hot  
spring. That boiled them; and, gen-  
tlemen, they were the finest boiled  
mackerel you ever tasted. I thought  
about sending some home to the folks,

There was a sudden interruption and  
six strong men took the native faker

trough.

### Out of the Mouths of Babes.

Little Arthur stood peering down  
into the countenance of his baby sis-  
ter, whom the nurse was singing to  
sleep.

"Say, nurse," he finally whispered  
"is 'nearly unconscious; isn't it?"

The nurse nodded in the affirmative  
and sang on.

Then don't sing any more, or you'll  
kill it!"

## "The Country People"

Of today, have reached the stage of  
intelligence where they are no longer  
imposed upon by traveling quacks and  
peddlers. The traveling spectacle  
vender used to reap a rich harvest,  
but he has done so much harm to  
the delicate organ, the eye, that peo-  
ple have learned that the safest plan  
is to have their eyes examined and  
fitted by a reliable local optician.

Dr. Ormond, our optical expert, will  
give you a thorough examination.

## TRAIN ISOLATED 5 DAYS

HUNDRED PASSENGERS ON LOU-  
ISIANA ROAD SUFFER FOR  
LACK OF FOOD.

### ONE MAN KILLED AND ONE HURT

Wreck on the M. K. & T. Railway  
Followed by Flood and Tornado  
—Passengers Taken Away  
by Launch.

Shreveport, La., May 19.—Cut off  
from the world by washouts in front  
and rear, the passengers on a wreck-  
ed Missouri, Kansas and Texas train  
spent five days and nights in the  
woods near Greenwood, La., having  
in their midst one dead and one bad-  
ly injured man.

The event was overshadowed by the  
cyclone which destroyed Gilliam  
and Bolinger, and the work of relief  
for the wreck sufferers was left to  
the railroad, which was cut off from  
all communication.

The passengers were at last rescu-  
ed by means of a small gasoline  
launch, the last of the passengers  
being brought to Mooringsport, La.,  
Sunday afternoon and there boarding  
the Kansas City Southern, came to  
Shreveport.

The wreck occurred last Wednes-  
day afternoon. Messenger F. M. Bla-  
lock was killed, while Fireman W.  
Dis was so badly injured that ampu-  
tation of one foot was necessary.

It is said that the 100 passengers  
suffered greatly for want of food. No-  
tice of their condition was first given  
by Auditor Harris, who swam the  
swollen stream and notified the out-  
side world of the train's condition.

### DOG ALTOGETHER TOO SMART.

Freeman's Good Reasons for Refusing  
to Train Another.

Freeman will never train another  
dog—in the way his wife thinks he  
ought to go. When Freeman bought  
Pepperpot he was a likely-looking and  
appearing airedale, with a heart for  
any kind of a "scrap" and a bark for  
every sound he heard or imagined.  
Then Miss Freeman thought it would  
be lovely to teach him to carry things,  
like the Atwoods' Prince, who was so  
clever at it.

"And Priny is only a cocker!" fin-  
ished Mrs. Freeman, by way of em-  
phasizing the superiority of their dog.

So Freeman began. And Pepperpot  
responded immediately to training.  
But it had come to him too late for  
him to take it lightly; in a week he  
was carrying everything he could  
grip with his determined teeth. The  
rest is Freeman's story, as he told it  
on the train the morning after their  
summer cottage had been looted of all  
its cooked food.

"Something waked me," Freeman  
said, "and I got up and crept down to  
the kitchen just in time to see three  
hoboes going out of the back door."

"What about your dog—your scrap-  
per?" his seatmate asked, with sur-  
prise in his voice.

"He was there all right," answered  
Freeman. "He was trotting ahead, car-  
rying the hoboes' lantern in his mouth  
and looking round and wagging his  
tail now and then."

"You can teach an airedale any-  
thing," he continued, complacently.  
"All you've got to do is to give him  
a start."—Youth's Companion.

### PARTING SHAFT A WITTY ONE.

Expelled Preacher at Least Left a  
Sting Behind Him.

Rev. John R. Clemons, for about 30  
years following the close of the civil  
war, traveled back and forth through  
the north middle states preaching the  
gospel wherever he could find a crowd  
of listeners. His doctrine was inde-  
pendent, his manner supercilious and  
his discourses both sarcastic and  
witty. The different sects after ear-  
during his extremely radical and  
fanatical sermons for a long time, at  
last closed the doors of their churches  
against him and thereafter he was  
forced to preach wherever he could.

Once he turned up at a basket meet-  
ing in northern Ohio just as the ser-  
vices were closed for the noonday  
feast. When the people, seated around  
on the grass, were busily engaged with  
the contents of their baskets, he  
mounted the improvised pulpit and be-  
gan to speak to the hungry members.  
His denouncement, on this occasion,  
of all churches and their creeds was  
unusually severe and the committee  
at once ordered him from the grounds.  
This order the Rev. Clemons utterly  
ignored, whereupon four stalwart  
members gathered him up and made a  
bee line for the gates.

He continued his discourse un-  
checked until at the outskirts of the  
crowd when he shouted lustily back:  
"The Lord rode into Jerusalem  
upon an ass, but I'm riding toward  
the new Jerusalem upon four."—Illus-  
trated Sunday Magazine.

Just then Rev. Dr. Fourthley passed

she retorted, "when he married us."

### An Apple Cure.

A curious investigation that is being  
made in England just now is to dis-  
cover how far apples are of use in  
overcoming a taste for liquor.

The question is asked of medical  
men in all parts of the country. The  
large majority declared that they  
never had known a case of a person  
accustomed to the free use of apples  
who was a drunkard; and, inversely,  
those who were fond of alcohol rarely  
liked apples.

## RUMBLINGS OF THE RAIL

STORY SENT OUT ABOUT "KATY" KILLING PASSENGERS WAS FALSE.

## COACH, CAB AND CABOOSE ITEMS

Matters of Interest Picked Up From Various Sources for the Benefit of Democrat-Sentinel Readers.

W. A. Mitchell, master carbuilder for the M. K. & T., returned last evening from a business trip to Muskogee, and pronounced as wholly without foundation the story sent out in Muskogee dispatches, that two passengers were killed in the Katy wreck near there last Friday, but that the railway officials secreted the bodies.

The object of the story, Mr. Mitchell says, was to make the public believe that the Katy had broken its record of never having killed a passenger, and it was given wide publicity in the press dispatches.

"You can say for me," said Mr. Mitchell, "that I gave the story a thorough investigation, and that it was a lie made out of whole cloth."

### Cars Were in a Wreck.

The eight passenger coaches which composed the M. K. & T. flyer when it was wrecked near Muskogee Ok., last Friday, passed through Nevada today, en route to St. Louis for repairs. The coaches were all more or less damaged, windows being broken and seats wrenched out of place. The coaches were in charge of Master Mechanic Mitchell.—Nevada Mail, 18th.

All of the wrecked coaches (except the Pullmans) were left at the Sedalia shops for repairs. The Pullmans were taken to St. Louis, Mr. Mitchell accompanying them.

### A Conductor's Injuries Fatal.

George L. Hay, a Missouri Pacific railway conductor, died Monday at the Missouri Pacific hospital in Kansas City from injuries received in a railroad accident last Wednesday May 14, in Paola, Kas. His home was at the Manhattan hotel in Kansas City, where he had lived four years. The wife and a daughter, Jeanne Hay, are living. Mr. Hay was a member of division No. 137 O. R. C. He was a Mason.

### An Auditor Bobbed Up.

Another of the long lost train auditors of the Missouri Pacific made his appearance here today, collecting fares on train No. 22, from Kansas City to St. Louis, passing through Sedalia at 10:20 a. m.

This is the first one who has braved the financial trouble in Sedalia for several weeks, although a few additional auditors have been reinstated on different trains on the Gould system.

### Vacant Runs Advertised.

Supt. N. J. Finney, of the M. K. & T., today advertised as vacant the following runs, recently held by brakemen P. C. Keyes, Tom Cornelius and Harry Spillers:

Sedalia-Nevada local, with Sunday layover at Nevada.

Sedalia-Nevada local, with Sunday layover at Sedalia.

### He Was Blown From the Car.

Burt S. Holcomb, a machinist, employed in the Missouri, Kansas & Texas shops at Parsons, Kas., was killed in the yards there last evening by falling from an inspection car.

He was burning oil on the coal. The oil exploded, throwing him from the car. He was run over.

### Why the Train Was Late.

Missouri Pacific train No. 10, due here at 2:35 a. m., arrived at 10:28 o'clock this morning, almost eight hours late, due to the failure of an engine and to the breaking of a chain that coupled two cars. The sleeper of the train was set out here to have the broken chain repaired.

### Notified of Relative's Death.

George Newman, a Missouri Pacific brakeman out of this city, was notified at Kansas City last night of the death at Wichita, Kas., of his sister-in-law, Mrs. Emma Newman, who died last night.

George left today for Fort Scott, where burial will be made tomorrow.

### Two Sections of No. 3.

Missouri Pacific train No. 3 will be in two sections tomorrow morning. The second section will convey delegates from St. Louis to the Presbyterian convention at Kansas City. E. M. Dennis, Missouri Pacific trainmaster, will accompany the second section over the Sedalia district.

### Another Bankruptcy Case.

Frank C. Rountree, an M. K. & T. fireman, 1907 East Fourth street, has

been declared a bankrupt. His assets and liabilities are unknown.

### Automatic Couplers.

Seventy patients are registered at the M. K. & T. hospital today.

It is said that the Missouri Pacific pay car will be here on Wednesday, the 27th.

Harry Spillers, a Katy brakeman, is now running with Conductor John Barnhart.

Hal Martin, a Missouri Pacific brakeman, who is laying off, has gone to St. Louis.

"Boyd," a recently established station on the Missouri Pacific, has been abolished.

Today is homeseekers' day on the Katy and No. 5 will be run in two sections tonight in consequence.

Tom McCloskey, a Katy machinist's apprentice from Parsons, Kan., is in the city visiting his parents.

W. T. Stephens, a Katy machinist from Parsons, and family, passed through Sedalia this morning on their way to Moberly to visit relatives.

Addis Eifer, a Missouri Pacific fireman out of Jefferson City, came up this afternoon to visit home folks.

S. W. Embrey, a Katy car builder, left this afternoon for a visit of a few days at different points in Nebraska.

Walter Geisenhomer, a Katy machinist's apprentice from Parsons, Kan., came up this morning to visit home folks.

John Thistlethwaite, a machinist from Parsons, Kan., arrived this morning to visit relatives until the first of June.

Charles Wolfe is calling trainman on the Katy today, in place of Earl Eckhoff, who officiated as assistant ticket agent last night.

Lou Kahrs, a Katy boilermaker of Parsons, Kan., arrived last night to visit his family until the opening of the shops at that place.

Harry Oman, a Missouri Pacific machinist's apprentice, will leave tomorrow morning for Lathrop, Mo., where he has secured a splendid position with a hardware firm.

Frank Armstrong, a machinist, who formerly worked here, now working at Parsons, Kan., and wife, passed through here this morning, en route to Moberly to visit home folks.

M. K. & T. train No. 2 was run in two sections this morning, the first section being a light engine, No. 316, in charge of Conductor Wilson, en route to Franklin Junction.

Rube Oglesby, a member of the state board of railway and warehouse commissioners, passed through here on the noon train today, on his way to Jefferson City to attend the state convention.

A. Lee, a Katy boilerwasher from Denison, Texas; J. H. Matthey, machinist from Parsons, Kan., and Earl Hackney, a Katy fireknocker from Parsons, are new arrivals at the company hospital.

Your shirt orders solicited and appreciated. Mrs. Weidenhold, 115 Ohio.

### The Hunt Begins Tomorrow.

The hounds which are to take part in the fox and wolf hunt on Muddy creek under the auspices of the Fox and Wolf Hunting club of Pettis county were taken to the scene of the sport today. The hunt will begin tomorrow.

**Reynolds and Reynolds**  
TELEPHONE 153.  
408 OHIO ST. 2ND FLOOR.

This is a picture of the home of Mr. T. M. Smith, colored, 206 West Morgan street, Sedalia. Mr. Smith runs out of here on the M. K. & T.

We are told by others that Mr. Smith owns seven pieces of property, and we know that he lives in this one. Mr. Smith does not frequent the saloon, and as saloon men do not get all his money he has placed it in property and helps to pay taxes. Mr. Smith has raised a family of several boys, and THEY will become taxpayers more than likely.

Just look around on Main street and see the number of people that are made so poor that they do not pay taxes, and YOU must help do their part of carrying the city's burden.

Just think! 30 men collect about \$400,000.00 every year of Sedalia's much-needed money and, according to Mr. Botz' figures, about 25 per cent of this remains in Sedalia—and then they pose as being a help to the community. Is it any wonder that Sedalia is in debt of \$200,000.00 after 48 years of this business?

These two pictures illustrate just what good the drink habit does the family privately; and when you consider that Sedalia is simply about 3,000 families, it shows how Sedalia as a city would be if they ALL were on one side or the other. Just think if EVERYBODY in Sedalia spent all they could make over the bar, or just think if NO ONE in Sedalia spent a cent over the bar. If YOU can do without it, help the poor fellow who CANNOT, and make it hard for him to get it.

Don't remain "NEUTRAL" on the voting question. It is either booze or business. Get on one side or the other.

Ex-mayor Rose, who was so kind in writing Mr. Botz the letter printed yesterday, was ousted from office because he would not make an attempt to enforce the law against the saloon. Mr. Botz knew who to write to but not an official.

## COTTON SEED CRUSHERS

Delegates From the South in Session at Louisville.

Louisville, Ky., May 19.—Large delegations from all over the south, from the Carolinas to Texas, are in attendance at the convention opened here today by the Interstate Cotton Seed Crushers' association.

Special trains brought several large parties of visitors and the attendance is the largest in the history of the organization. True Kentucky hospitality is on tap for the delegates, and the entertainments include a trip to the race track and to many points of interest in the vicinity of Louisville.

The importance of this convention will be evident when it is stated that the actual membership of the association is over 600; that it represents the refiners of cotton seed oil from all parts of the union; the producers of cotton seed oil throughout the south; the exporters, dealers and brokers of this country and Europe, and that it represents an investment of something like \$100,000,000, and the export business amounts to be between \$30,000,000 and \$35,000,000 annually.

## METHODISTS IN SESSION

Educators of the Southern Branch at Atlanta.

Atlanta, Ga., May 19.—Bishops, ministers and educators of the Methodist Episcopal church, South, are arriving here today from all over the country to attend the third educational convention of the denomination, which will be opened this evening under the auspices of the board of education. During the meetings, which will be continued tomorrow and Thursday, important educational questions will be considered.

Among the speakers on the program of the convention are Bishop Galloway, of Mississippi; Chancellor Barrow, of the University of Georgia; Governor Hoke Smith, of Georgia; Chancellor Kirland, of Vanderbilt University; F. H. Wainwright, of St. Louis and Dr. W. P. Few, of Trinity college.

Although the representation at the convention is mainly from the south, all parts of the country and several foreign lands are represented.

## Hackmen Before a Jury.

George Woods and Hub Green, cabmen, are on trial before a jury in police court this afternoon, charged with overstepping the boundary line at the Missouri Pacific station.

This is the home of 'Buck' Shelby, which, we are told, sets in East Clay street, Sedalia.

Mr. Shelby told us that he had worked 27 years for a wholesale liquor house on East Third street. Besides drawing all his wages, he has been paid over \$5,000.00 in pension. Upon asking him if he drank any, he replied: "All my life." We do not use this to criticize Mr. Shelby; he is to be pitied.

Now suppose that the licensed bar had NOT been in his daily walk, it is probable that he would have invested SOME of this money in Real Estate and become a taxpayer; but as all his money has been collected by the saloon, and all but 25 per cent has been sent away, YOU must help pay the taxes that Mr. Shelby should pay. That is just why the saloon makes our taxes HIGHER.

Just take a walk down on Main street and see the poor unfortunate men who have fallen by the liquor business, and TODAY the saloon men are grabbing every nickel they can produce, and YOU, Mr. Taxpayer, must share their burden on the tax question. Besides THAT, these people must have police protection, walks to stand around on, lights, etc., just as if they were taxpayers. YOU help to pay all this, hence HIGH taxes.

A drunken man, playing the role of a masher, who gave his name as James O'Brien, insulted a respectable married lady on Main street Monday afternoon, and then, catching hold of her, pushed her against a building and struck her. O'Brien was arrested by Officers Card, Robertson and Jackson and placed in the city jail.

## THIS IS A CLIPPING FROM TODAY'S CAPITAL

Just think of a man having an opportunity to strike at the root of such disgusting conditions as this one and then not doing it! The man who votes for the open saloon actually bids for such characters as this to come to Sedalia, and they WILL if the saloons remain. Marshall, Warrensburg, Sweet Springs, Higginsville and eighty counties of Missouri have become disgusted with such conditions as this and voted the saloon out, and Sedalia will simply be a dumping ground for this class of humanity. How can an intelligent man of Sedalia actually say by his vote, "This is what I want"? It may be worse than this next time, and it may be your wife or daughter.
